EDUCATION

Cornell University, College of Agriculture and Life Sciences – Ithaca, New York

Bachelor of Science in Statistics, Expected May 2025

Relevant Coursework: Data Analytics, Business Intelligence, Statistical Computing, Python Programming, Econometrics, Finance, Machine Learning Fundamentals

WORK EXPERIENCE

Starr Insurance – New York City, New York

Reinsurance Business Intelligence Associate — June 2025 – Present

- Lead automation and enhancement of business intelligence dashboards to provide actionable insights for underwriting and risk management teams.
- Collaborate cross-functionally to define KPIs, optimize reporting, and improve data-driven decision-making.
- Utilize SQL, Python, and data visualization tools (Power BI, Tableau) to transform raw data into strategic insights.
- Improve operational efficiency by streamlining workflows and standardizing reporting practices.

Reinsurance Business Intelligence Intern — June 2024 – May 2025

- Developed dashboards to track and provide insights on internal tickets, accelerating issue resolution and improving efficiency.
- Automated XML errors dashboard by writing code for direct database integration, enabling daily updates.
- Built analytics dashboards for the Captive Team, enhancing financial decision-making.
- Designed data validation tools to identify discrepancies between binder and certificate data, improving accuracy.
- Automated Treaty Exhibit Report with Python, reducing manual effort and standardizing key metrics.

Cyber 2.0 – Rishon LeZion, Israel

Cyber Security Intern — June 2023 – August 2023

- Built penetration testing scripts and optimized system efficiency for cybersecurity software in testing and defense modes.

LBI Carts – Long Beach Island, New Jersey

Manager — June 2022 – August 2022

- Managed daily business operations for electric golf cart rentals and implemented marketing strategies to increase revenue.
