

Shashi Vardhan Komire

Software Developer

Texas, United States | shashivardhankomire0408@gmail.com | +12034466787 | [LinkedIn](#)

SUMMARY

- Enthusiastic **Software Developer** with around **4 years** expertise in Python (**Django, Flask, FastAPI**) and Java (**Spring Boot, Hibernate**) for building scalable and high-performance web applications.
- Proficient in front-end technologies including **HTML, CSS, JavaScript, React.js**, and **Angular**, ensuring seamless user experiences and responsive designs.
- Strong expertise in database management using **PostgreSQL, MySQL, MongoDB**, and Redis, with hands-on experience in ORM frameworks like **SQLAlchemy, Django ORM**, and **Hibernate**.
- Skilled in cloud platforms such as **AWS (EC2, S3, RDS, Lambda)** and Azure, with experience in **Docker, Kubernetes**, and CI/CD pipelines (**GitHub Actions, Jenkins, Terraform, and Pulumi**) for automated deployments.
- Knowledgeable in **RESTful** and **GraphQL** API development, authentication methods (**OAuth, JWT**), and **Microservices architecture**, ensuring scalable and secure application development across Python and Java ecosystems.

TECHNICAL SKILLS

Programming Languages:	Python 3.x, Java, JavaScript, C/C++, PL/SQL
Frameworks:	Django, Flask, Hadoop, Behave, Web2py, Pyramid, Selenium, Scrapy, Request, Beautiful Soup, httpLib2, Jinja 2, Pandas, NumPy, Matplotlib, Pickle, SciPy, PySpark.
Web Technologies:	XML, CSS3, HTML5, DHTML, jQuery, RESTful, AJAX, Bootstrap, React, Vue.js, Express.js
Cloud Technologies:	Microsoft Azure, AWS Services, EC2, ELB, VPC, RDS, AMI, IAM, Cloud formation
Databases Management:	SQL Server, MySQL, Teradata, Oracle, MongoDB
Testing Tools:	Pytest, Unit Test, ROBOT, Lettuce
Operating System:	Linux, Unix, Windows
IDEs:	Visual Studio, PyCharm, Eclipse, Atom, Sublime Text.
Version Control/Tracking Tools:	Git, GitHub, Bitbucket, Jira
Methodologies:	Agile, Scrum and Waterfall
Other skills	Celery 5.x, React, Node, Streamlit, Django, Flask, Rest-Framework FastAPI, Redux, Tailwind CSS, Material-UI, Jest, Heroku, JSON, Web Tokens, GraphQL, Socket.io, Log Rocket, Critical Thinking, Communication Skills, Presentation Skills, Problem-Solving.

WORK EXPERIENCE

Bank of America, Connecticut | Python Developer Jan 2024– Present

- Designed and developed a Python-based automated loan eligibility scoring system that integrated customer financial history, credit scores, and transaction data to streamline approval workflows, reducing manual review time by 60%.
- Implemented scalable backend components using Python OOP principles, multi-threading, and memory optimization to handle concurrent loan applications and risk calculations in real time for over 100,000 daily applicants.
- Utilized SQL and Unix shell scripting to automate ETL pipelines that pulled raw financial data from multiple banking systems, cleaned and transformed it into normalized formats for analysis and audit logging.
- Developed RESTful APIs and Python modules to serve credit risk scores and eligibility recommendations to customer service portals, and created lightweight UI components using HTML, CSS, and JavaScript to display results in internal dashboards.
- Collaborated in an Agile SCRUM team environment, actively participating in daily stand-ups, sprint planning, and retrospectives while maintaining 90%+ unit test coverage using PyTest and integrating CI/CD pipelines via Git and Jenkins.
- Worked closely with compliance and data governance teams to ensure the scoring engine adhered to financial regulations such as FCRA and GDPR and used Splunk for real-time system monitoring and issue diagnostics.

Wipro, India | Software Developer Jun 2020– Dec 2022

- Led the modernization of a legacy ERP system, transitioning from a monolithic architecture to a microservices-based approach.
- Developed 2 critical microservices using Java and Spring Boot, improving system modularity and scalability.
- Designed and implemented a new RESTful API layer, facilitating seamless integration with other enterprise systems and third-party applications.
- Created a responsive web interface using React.js, improving user experience and reducing training time for new users by 20%.
- Integrated Elasticsearch for advanced search capabilities, reducing average query time by 40% for complex data retrieval operations.
- Collaborated with the DevOps team to containerize the application using Docker, streamlining deployment processes and reducing deployment time by 30%.
- Implemented comprehensive unit and integration tests, achieving 85% code coverage and reducing post-release bugs by 25%.
- Maintained comprehensive documentation in Confluence and created visual workflow diagrams with Lucidchart, supporting project onboarding and knowledge sharing.

Education

- University of Bridgeport, Bridgeport, Connecticut** | Master of Science in **Computer Science**
- Hindustan Institute of Technology and science** | Bachelor of Technology in **Automobile engineering**
