EDUCATION

Master of Engineering in Computer Science and Engineering University of South Carolina, College of Engineering and Computing	(GPA: 3.2/4)	May 2017 Columbia, SC
Bachelor of Engineering in Computer Science and Engineering Medicap Institute of Technology and Management	(GPA: 3.6/4)	May 2015 Indore, India

WORK EXPERIENCE – Summer Internship & Graduate Research Assistant (USC- COLUMBIA)

Boeing: Kuka Project • Designing and maintaining Python GUI using TKinter in python and maintaining database using XML for Kuka Robot application. • Analysis & capturing of Data generated by the Robot, parsing Data using python, Flex, & record video using Javacv, Opencv in Java.	Jan/2016-Active
Fokker Applications: SHM research using Embedded Programming • Designing and Implementing Embedded C coding to connect hardware chip to elevator sensor to capture Signals on Linux System. • Designed a GUI using C, C++ GTK+ and building a client- server side request response architecture using socket programming in C.	Feb/2016-Dec/2016

PROJECT EXPERIENCE – Graduate School (USC-COLUMBIA)

ALL AROUND APPAREL • Designing a website using HTML5, CSS3, Bootstrap, JavaScript, PHP, JQuery, AJAX and SQL for an online shopping start up.	March/2017-Active
VIPCARE+ • Developed an Android application using Java and XML on Android Studio for elder adults to protect them for any kind of elder abuse.	Aug/2016-Dec/2016
A Parallel Architecture for Inline Data De-Duplication using SHA-2 Hash • Designed a serial code for Data de-duplication in Java to remove redundancy and fast access of data. • Improved the serial code with C MPI and parallelized it to improve the efficiency and fast access.	Sep/2015-Dec/2015
Online Code Compiler • Developed using Nodejs, Angularjs with MongoDB as the database. • Implemented encryption algorithms such as RSA, Diffie Hellman to ensure protected sharing of keys and data.	Sep/2015-Dec/2015

PROJECT EXPERIENCE – Undergraduate School (MITM-INDORE)

Opus Play • Developed & maintained web based application using JSP & Apache Server for online game review, downloads, & ratings of games. • Designed an application to be updated to latest games with the help of Apache server.	Aug/2014- May/2015
IPL Auction and Fantasy league • Developed web based application using HTML, CSS, JSP designed based on online auctioning of cricket players. • Design that uses client server programing to reduce the tedious task of auctioning and save a huge amount of paper work by creating a virtual environment.	Jan/2014- May/2014

PUBLISHED PAPERS:

Performance Enhancement of database driven technique using Cynosure method in Cloud • Published Research paper on Cloud Computing performance deals with isolation, optimization and cost in cloud using Cynosure model • Published in International Journal of Computer Applications (0975 – 8887) Volume 103 – No 13, October 2014.	Aug/2013- Oct/2014
HCI Guidelines for Designing Website for Blinds • Developed protocols to develop software for visually impaired people with the help of HCI & Ubiquitous Computing. • Published in International Journal of Computer Applications (0975 – 8887) Volume 103 – No 11, October 2014.	Jan/2013- Oct/2014

TECHNICAL SKILLS

Operating Systems: Windows XP/7/8/10, Linux(Ubuntu), Android
Programming: C, C++, C#, .NET, Java, JSP, SQL, VB.Net, MPI using C, GTK+ using C, Python, JavaCV, OpenCV.
Web Design: HTML, CSS, JavaScript, Bootstrap, AngularJs, NodeJs, XML, Bower, JQuery, Ajax, Apache Tomcat, Web Page Maker;
Software and Solutions: GitHub, Virtual Machines, Eclipse, Netbeans IDE, Visual Studio, Android Studio, SQLite, MySQL server, MySQL Workbench, Tomcat Server, Star UML, VMware, IAR embedded workbench, Arduino, Cygwin, Putty, Atom, Agile.

CERTIFICATIONS

- Python (Four Certifications)- University of Michigan: Data Structures, Using Python to Access Web Data, Using Databases with Python, getting started
- HTML, CSS and JavaScript - Hong University of Science & Technology
- Frontend Web UI frameworks and Tools(Bootstrap) - Hong University of Science & Technology
- Introduction to the Internet of Things and Embedded Systems - University of California, Irvine

ACHIEVEMENTS

March/2015

Presented Seminars on “Introduction to Cloud Computing” In Prestige Institute of Management and Research, and IET DAVV.
