EXPERIENCE

Independent Project, JavaScript— *Chrome Controller*

April 2018 - PRESENT

A Google Chrome Extension that allows you to browse the web from your Xbox/PlayStation Controllers! Utilizes content and background scripting in order to bring the relaxation of the console environment straight to your Mac/PC. Almost 1,000 daily users!

Independent Project, NodeJS/JavaScript— *Ultimate Guitar Scraper & Tablature Parser*

April 2018 - May 2018

A server-side script written in NodeJS that scrapes www.ultimate-guitar.com. It has many features, such as autocomplete, getting query results, and parses the visual tablature representation into a useful JSON format. The repo has a proof of concept example.

EDUCATION

Self-Taught, Since 2015

- The vast majority of my experience has been from self-motivated trial and error, documentation, & Google search results.
- Learned in C++ building from-scratch game remakes such as Asteroids & PacMan.
- Now the majority of my focus is towards freelancing on UpWork and independent projects like Chrome Controller.

SKILLS

Fluent in JavaScript
(+HTML/CSS), Java, & C++.

NodeJS, React, Angular, & Electron.

Very familiar with Git,
specifically Git Bash & GitHub.

Knowledgeable in SQL,
including MySQL & MS-SQL.

BOOKS

All books mentioned were
read for my own pleasure.

“C++17 by Example”— Stefan
Björnander

“Mastering the C++17 STL”—
Arthur O’Dwyer

“C++ High Performance”—
Viktor Sehr, Björn Andrist
