EXPERIENCE

Graduate Assistant | Northwest Missouri State University

Jan. 2025 – Present

- Supported 30+ students strengthen their skills in **Java programming** and database concepts through one-on-one support and small group sessions.
- Earned a **50% tuition waiver** for academic merit and instructional support as part of the assistantship.
- Created coding exercises, examples, and reference material that made complex topics easier to grasp.
- Provided feedback on assignments and hosted weekly review sessions to guide collaborative problem-solving.

Consultant | Syniti

Feb. 2022 – Jul. 2024

- Delivered enterprise **Master Data Management (MDM)** solutions for global clients including Rio Tinto, Zespri, and Yancoal, focusing on supplier and material data governance.
- Worked with **Syniti ADM** and the **Syniti Knowledge Platform (SKP)** to design and maintain data governance workflows.
- Integrated MDM processes with **SAP BP, MM, FI and PM** modules to strengthen supplier, material management and maintenance operations.
- Provided post-go-live support by resolving critical issues, implementing enhancements, and ensuring stable system performance.
- Collaborated with business stakeholders and QA teams to conduct **UAT**, clarify requirements, and deliver reliable releases on schedule.

PROJECTS

AI Sales Assist | React Native, Whisper API, GPT-4o-Mini, Supabase, RAG, FastAPI

Jul. 2024 – Present

- Developed a **React Native** app for real-time AI coaching by capturing live sales calls and delivering contextual guidance.
- Integrated **Whisper API** for transcription and **GPT-4o-Mini** to generate coaching tips during ongoing conversations.
- Built a **RAG pipeline** with vector search to retrieve strategy-aligned insights from the sales playbook.
- Used **Supabase** for secure data storage and **FastAPI** to deliver real-time insights via RESTful APIs.

Voice Notes – iOS Audio Notes App | Swift, MVC, iOS Development

Jan. 2025 – Apr. 2025

- Designed and implemented an **iOS app** for recording and playback using **AVFoundation APIs**.
- Applied **MVC architecture** with **UIKit** and **Storyboards** to create a responsive, user-friendly interface.
- Managed **audio permissions**, app lifecycle events, and handled device-specific edge cases.
- Enhanced performance by profiling app behavior and reducing memory usage by 20%.

Image Caption Generator – Deep Learning Model | Python, CNNs, RNNs

Jun. 2021 – Dec. 2021

- Engineered a **deep learning pipeline** integrating **CNNs** for image feature extraction and **RNNs** for text generation, achieving 90% accuracy.
- Preprocessed large-scale image datasets and implemented **data augmentation** to improve generalization.
- Optimized model through **hyperparameter tuning** and iterative training experiments.

TECHNICAL SKILLS

Languages: Java, Python, Swift, SQL, HTML/CSS, JavaScript

Frameworks/Tools: React Native, FastAPI, Whisper API, GPT-4o-Mini, RAG, Power BI, Tableau, Excel, Syniti ADM/MDM, Syniti Knowledge Platform (SKP)

Databases: MySQL, PostgreSQL, SQL Server, Oracle, MongoDB

Enterprise Systems: SAP S/4HANA (BP, MM, PM, FI)

EDUCATION

Northwest Missouri State University

Maryville, MO

Master of Science in Applied Computer Science

Aug. 2024 – Dec. 2025 (Expected)

Sir M Visvesvaraya Institute of Technology

Bengaluru, India

Bachelor of Technology in Computer Science and Engineering

Aug. 2017 – Aug. 2021
