Education

The University of Tennessee, Knoxville
Bachelor of Science in Computer Science
GPA: 3.97/4.0

Knoxville, TN
Dec 2024

Certifications

[AWS Certified Cloud Practitioner](#) | [AWS Knowledge: Architecting](#) | [AWS Cloud Quest: Cloud Practitioner](#)

Experience

Tennessee Valley Authority
Computer Tech

Knoxville, TN
2025–Present

- Managed endpoint devices and database mappings for SCADA power grid applications; utilized SQL for endpoint data queries and designed custom operator displays with Display Builder to enhance system visualization and situational awareness.

Tennessee Valley Authority
ICAM

Knoxville, TN
2023–2025

- Utilized Ansible and Terraform for efficient cross-server automation and configuration management.
- Developed tools for automation of routine administrative and monitoring tasks in Active Directory using PowerShell.
- Managed the PKI certificate lifecycle with Venafi, from issuance to revocation, ensuring continuous monitoring and integration with technologies such as IIS, Apache, Tomcat, and WebSphere for secure management.
- Managed sudo and HBAC permissions for RHDS10 and IDM, while actively monitoring and maintaining the RHDS10 and IDM master servers to ensure optimal performance and security.

US Army Reserve

Information Technology Specialist (T3 Security Clearance—Active)

2022–2025

- Administered and maintained computing systems and servers within the network environment.
- Configured and managed network infrastructure, including routers and switches, to ensure secure and reliable connectivity.

Skills

Languages: C++, C, C#, SQL, JavaScript, HTML, CSS, RISC-V, TypeScript, Python

Frameworks: React, Node.js, .NET, Bootstrap, jQuery

Tools: Linux/Unix, Git/GitHub, PowerShell, Ansible, Terraform

Relevant Projects

[Convert Pixel Image to ASCII Characters Webapp](#) (HTML, CSS, JavaScript) — [Live](#)

- Taking an image from either a URL or file upload and converting each pixel to a relevant ASCII character.
- Redraws the image on canvas with character pixels, with options to adjust density and download.

[Demo Store Website](#) (React, Redux, Bootstrap) — [Live](#)

- Built a demo store which shows products with full functionality such as login, signup, checkout, and cart management.

[CRUD Application Webapp](#) (C#, ASP.NET, SQL Server) — [View](#)

- Displayed a table containing client information on a webpage.
- Supported full CRUD operations backed by Microsoft SQL Server.

[Multithreading Chat Server](#) (C) — [View](#)

- C-based console application functioning as a server within a connected network.
- Enabled clients to connect to rooms and engage in communication with other occupants.
