

KIRAN AYYALASOMAYAJULA

U.S. CITIZEN

- PROFILE**
- A well rounded IT entrepreneur, leader, client business partner, trusted advisor, technologist, enterprise solutions architect, account manager and Customer Experience advocate, interacting and collaborating with all levels of management (internal and external).
 - Excellent analytical, communication, presentation, listening, interpersonal and expectation management skills, combined with high degree of professional integrity and work ethics.
 - Highly motivated, self-starter, innovative and quick learner, with proven ability to apply critical thinking and analytical skills to solving business problems, with attention to detail.
 - Successfully built, led and managed varying teams with sizes from 4 to 30+, both directly, and in matrix environments. Mentored and coached personnel to grow within the organization. Successfully created and led cross-functional teams promoting results driven collaboration.
 - Thorough understanding of the Cloud Architecture and Services (x)aaS.
 - Rich experience in formulating, managing, designing and implementing various Omni-channel strategies to enhance and improve Customer Experience (CX) (both internal and external customers), with a focus on increasing efficiencies, effectiveness, and business agility.
 - Rich experience in architecting unique and creative business solutions; providing best practices in the areas of Customer Relationship Management.
 - Highly proficient in the areas of ROI modeling, risk management, complex project cost & resource estimation, integrated sales & service model improvements, and packaged software implementation methodology enhancements incorporating Global Delivery Model.
 - Proven leadership, entrepreneurial and negotiation skills in successfully strategizing, planning and execution of highly complex, strategic and multi-disciplinary CRM engagements, in line with company's strategic initiatives, using Analytics and KPIs, to further the goals and objectives of the organization.
 - Formulated extremely creative and winning business-development/sales/go-to-market strategies.
 - Worked for the major enterprises such as SAP, PeopleSoft, and Vantive, with an exclusive focus on CRM, in various industries including FSI, and successfully generated over \$40M in services revenue.

- EDUCATION & CERTIFICATIONS**
- Bachelor's Degree in Computer Science & Engineering; Osmania University; Hyderabad, INDIA
 - Certified Enterprise Architect (FEAC Institute)
 - TOGAF 8 Certified

EXPERIENCE MINDSHIFT TECHNOLOGIES, INC.

APR 2010 – PRESENT

Senior Enterprise Software Engineer, Internal Systems

- Entrusted with total control, ownership, accountability and responsibility, as a **Call Center Technology - Architect and Manager**, for
 - Revamping the entire Unified Communications Infrastructure, stabilizing it with 99.999% uptime, and growing it from 5 teams to accommodate more than 30 different teams, as part of organic growth and through mergers and acquisitions.
 - Managing successful implementations and deliveries of productized White\Private Labeled Voice-as-a-Service and Chat-as-a-Service.
 - Defining and implementing various Customer Experience focused Omni-channel strategies
 - Architecting, designing, developing, and maintaining a scalable, & fault tolerant Enghouse CCE (Contact Center Enterprise) (IVR) solution (also previously known as CIM from

Syntellect\Apropos, and equivalent of UCCX\UCCE) with Cisco (CUCM 8.x), for multi-channel (Voice, Email, and Chat) and 24x7 Call Centers spread across the country.

- Designing and implementing
 - Automation for Text To Speech conversion for Message of the Day features,
 - Data Driven Approaches for all-encompassing Call Flows for various businesses and needs, with varying degrees of complexity in interaction flow scenarios
 - Automatic notifications for system and user exceptions with user empowered self-remediation capabilities
 - Dynamics CRM Screen Pops; and Dynamics CRM Queue -> Email -> Task Interactions for automated CRM Queue Monitoring & Management
 - Blended (Inbound\Outbound) Calls Management
 - API initiated Call Recording with Uptivity system using Active Integration with CUCM using BiB (Built-in-Bridge) capabilities; and Quality Management using Uptivity “Agent Evaluation” features.
- Managing various CUCM 8.x features and configuration settings for all the call centers and agents, including Device Pool, Location, Region, Line Group, Hunt List, Hunt Pilot, SIP Profiles, SIP Trunks, Extension Mobility, CTI Route Points, CTI Ports, Failover Hunt Groups, User Management, BAT, Cisco TSP etc.,
- Managing various Cisco Unity features and configuration settings for automatic deposit of voicemails from Enghouse CCE system to Unity and management of Notification Workflows.
- Creation of automated (Short 5 minutes, How-To) Training Videos for the Call Center Managers & Agents to enable increased self-sufficiency and minimized IT dependencies.
- Defining and implementing technology roadmap for the Customer Experience (CX) focused service initiatives to meet targeted KPIs and SLAs.
- Ensuring adherence to proper process and programming standards.
- Vendor Management, including negotiations and license management.
- Successfully managed various internal and external projects including
 - Microsoft Dynamics CRM 4 and 2011
 - Performance Tuning at the application, database, OS, and hardware levels.
 - Complete hardware restructuring including, identification & selection of the right hardware and vendors, vendor negotiations, managing the migration of the Always-On backend SQL Server 2012 from current problematic hardware to the new SSDs based hardware.
 - Crisis Management of a failing project
 - Was brought in at the tail end of the project deadline, and successfully led, globally distributed multiple internal and 3rd party teams, directly handling a total of around 20 resources, across multiple time zones, resulting in a successful recovery of the project, with on-time \ on-budget delivery and deployment across 40 different sites, of a School Bell System based on Asterisk PBX.
 - Implementation of a Cloud Provisioning System using VM Ware Orchestrator in conjunction with VM Ware vCloud Director (VCD).
 - Implementation of Cloud based Eloqua Marketing System’s integration with On-Premise Microsoft Dynamics CRM using SSIS and Web Services.

INDEPENDENT CONSULTING.

2008 - 2010

- **FEMA** - Key member of the technical team supporting the data management and analysis needs of the FEMA Gap Analysis Program.
- **USPTO** - Involved in all aspects of United States & Foreign Patents searching in business processes and methods for a Fortune 100 company. Conducted Intellectual Property Patentability searches at the United States Patent and Trademark Office as well other libraries. Utilized on-line research software such as EAST (Examiner's Application Search Tool) at the Patent Office and other databases such as Dialog, Derwent, and Delphion etc.
- **HPC** - Engaged in personal research in High Performance Computing (HPC) area, using NVidia Tesla C870 GPU, STI (Sony, Toshiba and IBM) Cell Broadband Engine and FPGA.

SAP AMERICA, INC.

2006 - 2007

Successfully executed various responsibilities as a **Customer Engagement Manager**, including

- Overall responsibility for the daily management of assigned customer accounts (both CRM-On-Premise and CRM-On-Demand), including account management strategies as well as engagement and expansion plans to ensure profitable growth within these customers.
- Serving as the primary point of contact for the customer, and maintaining customer satisfaction through issue mitigation and escalation management.
- Retention of the revenue associated with customers within the assigned portfolio, effective positioning of the CRM value proposition in order to leverage adoption of SAP's solutions and services necessary to support the customer, and ensuring that the services and resources that SAP provides exceed the customer satisfaction levels.
- Representing assigned customers throughout the SAP organization as their trusted advisor.
- Facilitating executive level communication between customers, SAP and the Software Integrator.
- Meeting a target of \$6M in services revenue.

KSHAMA, INC.

2004 - 2005

Director of Services for a high-tech startup engaged in VoIP and Project Analytics.

- Responsible for managing VoIP vendor evaluation & selection.
- Development of sales, project and strategic engagement tools.
- Successfully managed over 50 domestic and offshore implementations of VoIP, designed to minimize international telecommunication costs and provide ongoing, strategic increase in operational efficiencies.
- Provided professional services and project management consultation to SMBs on traditional and IP PBXs.

PEOPLESOFT, INC.

1996 - 2003

CRM Strategist, Strategic Engagement Team

- Managed support for CRM Business Development activities in pre-sales by strategically guiding the roadmap for various CRM opportunities worth over \$10M in the year 2003.

- Successfully developed and deployed complex engagement modeling tools encompassing Global Delivery Model.
- Identified, analyzed and assessed various project risk factors. Collaborated with interested parties and formulated risk response strategies.

CRM Client Executive, PeopleSoft Consulting

- Successfully launched the emerging CRM consulting practice in the North East in a tough product and economic environment and generated \$15M revenue opportunities.
- Trusted advisor to enterprise customers. Worked closely with the client and sales team, in a project's strategy and planning phases, determining the best solutions for the customer through PeopleSoft Consulting Services, and performed as main point of contact for ongoing communications through the PeopleSoft Global Services engagement.
- Worked with the customers to drive and determine various ROI strategies specific to their business needs and recommended proven CRM implementation best practices.
- Worked with internal PeopleSoft organizations including product strategy and product management, product sales, consulting, legal and others to identify, negotiate, manage and execute CRM license & services sales development initiatives.
- Contributed significantly to the enhancement of CRM product vision and roadmap including industry verticals such as CRM for FSI (Financial Services Industry).
- Responsible for the consulting aspect of transforming "HR Call Center" from vaporware to a software product, as well as promoting it within and educating the internal sales organization.
- Worked extensively with software and consulting partners on joint opportunities. Created integrated solution maps. Successfully created, implemented and facilitated packaged services such as "Enterprise CRM Strategy Workshops".
- Contributed to the change management strategies during the national and regional integration of the Vantive organization by PeopleSoft, by positioning a strong vision for the CRM practice across multiple departments.

THE VANTIVE CORPORATION (ACQUIRED BY PEOPLESOFT INC.)

CRM Business Development Manager, Eastern Region Consulting

- Instrumental in generation of \$15M in CRM services over a period of 2 years.
- Responsibilities included developing implementation proposals for the sale of Vantive's software products and services to customers; reviewing customer's technical specifications of computer systems to develop implementation plans, cost estimates, required technical specifications and required modifications of existing technical specifications for successful implementations of Vantive products/services; reviewing and negotiating services contracts for implementation plans and provide technical training to the customer's employees; participating in pre and post implementation planning and development with customers.
- Created, marketed and sold consulting packages, based on campaigns themed "Purchase to Production in 60 Days" such as "eCRMNow" for express CRM implementations.
- Created an expanded services footprint and value proposition to customers, to cover program management functions for large and complex CRM engagements.
- Successfully improved the maturity model of the business development organization to enable upward scaling of the coverage in the north-eastern region of U.S.

CRM Program Manager / CRM Project Manager / CRM Solutions Architect

- As a key member of the Solutions Delivery group, successfully executed various activities such as Project Initiation, Project Planning and Implementation, Pre-Sales Presentations, Fit/Gap Analysis and Design, Data Modeling, Database Administration, Customization, Performance Tuning, Architecting integrated solutions by leveraging state of the art technologies including CTI, Web, Pager, Email, & Fax.
- Awarded “Consulting Fireman of the Year 1997” by The Vantive Corporation for successfully handling 24 CRM accounts in a year.
- Successfully implemented wide variety of over 50 CRM projects in the areas of Sales Force Automation, Marketing, Call Center, Field Service, Helpdesk and Quality.

OFFSHORE DIGITAL SERVICES, INC.,

1994 - 1995

Data Modeler \ Architect

- Involved in data modeling, analysis, design and development of a ‘Business Partner Marketing System’. Responsibilities included project estimation, conducting data modeling, analysis and design sessions, and developing business rules using Ross Methodology, and managing the data conversion process from FoxPro to MS-SQL Server.

SYNECTICS (A SYSTEM HOUSE OF TATA-HONEYWELL), INDIA,

1993 - 1994

Business Partner

- Established a System House for Tata Honeywell for the South Indian market and expanded the business for the first 1½ years.
- Provided ISO 9000 consulting services while designing and developing software for a manufacturing company.
- Responsible for the design and development of a Contact Management system which catered to the needs of Trading Houses, Chartered Accountant Firms etc.

STRABUS SOFTWARE SOLUTIONS PVT. LTD., INDIA,

1992 - 1993

Senior Software Engineer

- Developed and implemented
 - Patient Management system for a reputed Eye Care Institute; and
 - Production and Maintenance Tracking system for a Manufacturing company.

FRONTIER INFORMATION TECHNOLOGY PVT. LTD., INDIA,

1990 - 1991

Software Engineer

- Responsible for the development and implementation of a tool for testing a set of development utilities such as Report Writer, Forms and Menu Editor and a Math Library. Tasks included exhaustive testing, debugging and enhancements. Inter Process Communication calls in UNIX and Interrupts in DOS were utilized to enhance the feature set offered by these development tools. Portability from DOS to UNIX was a major consideration for these tools.
- Responsible for porting of an existing DOS based ‘Stock Exchange – Securities and Bonds Book’ system to UNIX environment, and for the conversion of single user DOS based system to multi-user system on Novell Netware. This responsibility included identifying, designing and developing the multi-user

aspects and implementing them using C-Tree (ISAM based File Management System) locks on data records ensuring prevention of contention and deadlocks. Responsible for implementing the system in London and Geneva.

PROFESSIONAL DEVELOPMENT

- VMware vSphere: Install, Configure, Manage [V41]
- Call Center Auditor Certificate – Center of Excellence – Purdue University.
- “Leadership, Management and Communications” – George Washington University.
- “Managing Projects and Scheduling/Cost Control for PeopleSoft” – George Washington University.
- Cell Broadband Engine Architecture Workshop - by IBM.
- Workshop for General Purpose Processing on Graphics Processing Units - by Northeastern University.
- Lattice High Speed Interface SpeedWay Design Workshop –by Avnet.

PLATFORMS TECHNOLOGIES LANGUAGES FRAMEWORKS METHODOLOGIES

- C#, C, C++, CUDA C, Impulse C, GNU C, Python, ASP, HTML, CGI, Perl, VBScript, Java, JavaScript, TCL, Visual Basic for Applications, Visual Basic.Net, PowerBuilder, Visual FoxPro, Pascal, Fortran, Prolog, Lisp, Assembly Language.
- LAMP Stack.
- Cisco TSP (TAPI), Microsoft SAPI, Speech Server (mainly for TTS), VoIP.
- CTI\IVR – ApropoS\Syntellect\Enghouse, Genesys, Aspect, Geotel.
- Call Recording – CallCopy\Uptivity.
- Cisco Call Manager (CUCM 8.x), Unity; TalkSwitch, Asterisk PBX, Sipura 3xxx Configuration & Mass Provisioning.
- Eclipse IDE, Visual Studio.Net, PowerSDE, Cell BE SDK (using PS3), GPGPU (Tesla C870 from NVidia), and Multi-Core platforms such as Accelerator, RapidMind, FPGA.
- IIS\Tomcat\Apache.
- MS SQL Server 2012\2008\2005, Oracle, Sybase, DB2, SQL AnyWhere.
- MS Project, MS Visio Professional, MS Access, MS Office Suite, Erwin, LBMS Systems Engineer 6.1, S-Designer, Turbo Analyst, Mindjet Mind Manager, StrataScope Business Strategy Analyzer.
- InstallShield, PictureTaker/PRISM, Actuate, Crystal Reports, Cognos, Angoss, Business Objects, Informatica, and FirstLogic.
- Windows 2012\2008\2003\2000\NT\8\7\XP; Linux (all flavors), Embedded Linux, Sun Solaris, HP-UX, Novell Netware, VxWorks (RTOS).
