

Binita Gyawali

Chicago, US | (256) 694-5147 | binitagyawali000@gmail.com | [linkedin.com/in/binitagyawali](https://www.linkedin.com/in/binitagyawali) | binita.medium.com

EDUCATION

University of Alabama in Huntsville

Huntsville, US

MS Computer Science, Data Science specialization, 3.6 GPA

Aug. 2022 – Dec. 2024

Thesis: Semantic Clone Detection Using Deep Learning

Relevant Courses: Data Mining, Machine Learning, Deep Learning, Design and Analysis of Algorithms, Software Engineering, Programming Languages, Computer Architectures, Computer Security

UAH is classified among “R1: Doctoral Universities: Very High Research Activity”.

TECHNICAL SKILLS

Analytics: SQL, pandas, R, SAS, Sklearn, XGBoost, NumPy, SciPy, spaCy, nltk, Spark

Visualization: Tableau, Power BI, ggplot2, Matplotlib, seaborn, Plotly, Mapbox GL JS, Bokeh, Altair, Looker

Others: AWS, Git and GitHub, GraphQL, Jenkins, LaTeX, Docker, Flask, Kubernetes, Kafka, NoSQL

EXPERIENCE

Graduate Research Assistant (Data Analytics)

Aug. 2022 – Dec. 2024

NASA-IMPACT, University of Alabama in Huntsville

Huntsville, US

- **Visualized** Earth science physical variables, such as **CO₂ concentration**, using **Mapbox GL JS** to create interactive maps, providing insights into spatial patterns and trends for climate research
- **Automated data extraction, cleaning, and visualization** processes using **Python** and integrated workflows with GitHub Actions and GraphQL API, **reducing** manual effort by **80%** and improving operational efficiency
- Applied **NLP** and **data mining techniques** to extract Earth science **keywords** from earth science documents, **improving metadata discovery**

Data Analyst (Intern)

Apr. 2021 – Jul. 2021

Open Knowledge Nepal

Kathmandu, Nepal

- **Analyzed** Nepal's COVID data and **published** a blog on COVID situation of Nepal using WHO weekly reports
- **Collaborated** with data journalism teams to **produce** and **publish** a comprehensive COVID-19 situation report
- **Scraped, cleaned, wrangled, and visualized** COVID data from WHO reports using **Python (pandas, plotly)**

Junior Data Analyst/Officer

Sep. 2019 – Dec. 2020

Genese Cloud Academy

Butwal, Nepal

- Coordinated with **12+ academic institutions** to **analyze project metrics** and present insights to stakeholders, **enabling data-driven decisions** that improved project outcomes
- **Developed** and **delivered** training on **AWS, Office 365**, and professional skills; authored course materials on **Python, Git**, and **cloud technologies** to meet evolving industry needs
- Managed and optimized **web services**, ensuring **seamless user experience** and **reliable data delivery**

HONOR & AWARD

Data Fellowship 2021 | Code For Nepal/Open Knowledge Nepal

Feb. 2021 – Jul. 2021

- Completed **113 hours** long “**Machine Learning Scientist with Python**” track under DataCamp
- **Blog Link:** <https://codefornepal.org/2021/07/11/Experience-being-a-data-fellow-at-Code-for-Nepal>

PROJECTS

Supply and Demand Analysis | Data Analysis and Visualization

Dec. 2024 – Jan. 2025

- **Analyzed** and **visualized** web traffic and supply-demand data to **calculate metrics, identify trends**, and **optimize decisions**, including click rates, driver schedules, and peak periods

Malaria Data Analysis | Data Analysis and GIS

Jul. 2024 – Aug. 2024

- **Analyzed** and **visualized** malaria testing data for children under five by urban and rural areas
- **Created** geographic & housing quality **maps** showing regional patterns in malaria prevalence & housing condition

Chicago Crime Rate Prediction System | Time Series Forecasting

Jan. 2022 – Mar. 2022

- Used forecasting tool **Facebook Prophet** to predict Chicago crime rates at different locations and times and achieved **MAPE** score of **15%**
