PROFESSIONAL EXPERIENCE

Simon Vision Consulting

Rochester, NY, USA

Consultant

Jan 2025 – Present

- Led comprehensive consulting analysis for Rochester Transit Services (RTS), utilizing Excel, SQL, and data visualization tools to identify workforce inefficiencies, streamline reporting processes, and drive a 10% improvement in operational efficiency.
- Conducted employee engagement analysis for the Nexus Development Program using PCA, clustering, and statistical testing in Python to identify regional training needs and recommend tailored strategies for a \$1M change management initiative.
- Built a Tableau dashboard using SQL and Excel to analyze rental data across 100+ countries, uncovering high-efficiency markets and customer segments—informing regional strategies projected to boost revenue by 13%.

Advantage Federal Credit Union (AFCU)

Rochester, NY, USA

Member Service Representative and Cashier

June 2023 – June 2024

- Boosted new product sales by 10% through client relationship optimization, analyzing operational data using SQL and CRM tools to identify customer needs and patterns, enhancing customer engagement and driving a 5% increase in branch revenue
- Conducted gap and fit analysis through 100+ customer and employee interviews and surveys, process mapping, and SME collaboration, creating an operations manual that boosted transaction efficiency by 15%
- Built customer profiles and interactive transaction dashboards using SQL and Tableau, enabling sales teams to make data-driven, personalized recommendations that boosted direct sales by 8% and cross-sales by 20%

Starbucks

Alexandria, VA, USA

Assistant Store Manager

July 2022 – June 2023

- Boosted sales by 12% through strategic inventory management and product promotion analysis using SQL and POS data; collaborated with the team to adjust stock levels and optimize high-demand product placements, enhancing store profitability
- Utilized customer transaction data to identify purchase patterns, enabling targeted upselling strategies that increased average order value by 8% and promoted seasonal product launches, driving customer engagement and revenue growth
- Optimized inventory turnover by 18% by implementing predictive analytics tools (Regression analysis, R), enhancing inventory accuracy, and ensuring availability of high-demand items, contributing to store ranking in the top 10% regionally

INSURANCE CORPORATION OF AFGHANISTAN

Kabul, AFG

Finance and Accounting Analyst

Sep 2018 - Sep 2020

- Decreased outstanding payments by 12% using SQL and Tableau to analyze receivables data, develop accurate financial projections, and streamline tracking processes, resulting in improved cash flow and efficient accounts management
- Prepared and analyzed detailed financial reports, including balance sheets, cash flow and income statements, leveraging Excel and financial modeling tools to ensure 98% accuracy in metrics like ROI and IRR, supporting strategic planning

InFrontier Ltd (Private Equity Firm)
