MPH	Master of Public Health 2024 Concentration: Global Health George Mason University, Fairfax, VA	May
B.S.	Bachelor of Science 2022 Major: Community Health George Mason University, Fairfax, VA	May

Professional Experience

Guidelines and CPU Coordinator American Gastroenterology Association , Bethesda, MD	January 2025-Present
• Coordinate meetings with clinical experts worldwide; prepare agendas, take detailed meeting notes, and maintain project deadlines. • Develop and update standard operating procedures (SOPs) for internal workflows. • Support data collection, data cleaning, and spreadsheet-based analysis for guideline development. • Utilize tools such as SurveyMonkey, Workzone, Reflective, Doodle, and Planestone to manage project communications and workflow processes.	
Patient Service Representative Capital Area Pediatric , Oakton, VA	August 2022-December 2024
• Maintain a high volume of patient calls and used Athena Health to complete intake, scheduling, and documentation. • Communicated with providers, pharmacies, and specialty clinics to resolve patient inquiries and coordinate care. • Assisted families in navigating clinical processes and addressing concerns with professionalism and sensitivity.	
Integration Health Intern Community Services Board , Fairfax, VA	January 2024-May 2024
• Used eClinicalWorks and Credible to review patient records and extract relevant data. • Performed data entry, created dashboards, and visualized lab results using Microsoft Excel. • Identified trends related to healthcare access barriers and presented findings to nursing leadership.	
Veterinary Technician Assistant Little River Veterinarian , Fairfax, VA	November 2022-August 2023
• Supported veterinarians and technicians in a fast-paced clinical setting, including restraining animals and preparing for procedures. • Communicated post-diagnosis care instructions to pet owners with clarity and empathy. • Operated lab equipment such as centrifuges and microscopes to prepare and review diagnostic samples.
