

NITHIN KUMAR JAMMICHEDU KURUVA

FULL-STACK SOFTWARE DEVELOPER | M.S. COMPUTER SCIENCE (GPA 4.0) | JavaScript, Python, Next.js, DSA
1670 Sassafras Ct, Kent, Ohio (44240) | +1 330-281-2484 | nithinkumarjk1@gmail.com | [Website](#)

Summary

- Expertise across the modern stack — React, Next.js, Node.js, PostgreSQL, MongoDB.
- Proven ability to build scalable, high-performing web and mobile applications.
- Skilled in Agile development, CI/CD workflows, and database optimization

Skills

Languages & Core CS

JavaScript, TypeScript, Python, SQL, Data Structures & Algorithms (DSA), Problem-Solving

Frontend & UI

React, Next.js (App Router, SSR), React Native, Zustand, Redux, Context API, TanStack Query, Tailwind CSS, ShadCN, Material UI, Three.js, Framer Motion.

Backend & Databases

Node.js, Express.js, Flask, Django, Hono.js, PostgreSQL, MongoDB, Drizzle ORM, Prisma, Mongoose, Neon DB, Supabase, Appwrite, REST APIs, GraphQL

Authentication & Security

NextAuth (Auth.js), Better Auth, Clerk, JWT, OAuth, Role-Based Access Control (RBAC), firebase

Development Tools & Methodology

Git, GitHub, Agile/Scrum, CI/CD, Database Optimization, Figma, Vercel

Education –

Kent State University – Master's in computer science (GPA - 4)
(2024 January – 2025 December) – Kent, Ohio, United States

Vellore Institute of Technology – Bachelors in Computer Science
(2019 August – 2023 May) – Amaravathi, Andhra Pradesh, India

Experience

upclickLabs (Education4ol)

Full Stack Developer (Intern) / November 2022 – Dec 2023

- Built responsive React.js and Next.js components, improving page load time by 25%.
- Developed REST APIs with Express.js and optimized MongoDB queries, reducing data retrieval time.
- Enhanced the company's analytics dashboard (admin panel) by working on both frontend and backend, enabling real-time tracking of 1,000+ user activities.
- Implemented features for monitoring student/employee progress, managing user lists and mutations, sending notifications, and generating performance charts boosting engagement by 15%.

Projects

FlashCode – Full-Stack Q&A Platform (Web, Mobile, & Admin Dashboard)

Jan 2025 - April 2025 [live Demo](#) | [Admin Panel](#)

- Designed and developed a full-stack Q&A platform for Kent State University using Next.js (TypeScript), React Native, MongoDB, and Neon PostgreSQL.
- Delivered a web platform, cross-platform mobile app (Android & iOS), and admin dashboard, enabling 100+ students, professors, and alumni to share coding knowledge.
- Built advanced features such as search & filtering, voting, bookmarking ("Collections"), and daily coding challenges, driving a 20% increase in coding engagement.
- Integrated Clerk and NextAuth (Google, GitHub, Email/Password) for authentication and React Hook Form + Zod for robust validation and secure access control.
- Styled with Tailwind CSS and ShadCN, achieving a modern, accessible design with dark mode support and 95+ Lighthouse performance scores.

Oopshub – Workspace & Task Management Tool - May 2025 - July 2025 – [live Demo](#)
