WORK EXPERIENCE

Support Enigma LLC, Houston, USA

Aug 2024 - Present

Full Stack Developer

Tech-Stack: Java, Spring Boot, ReactJS, JavaScript, SQL Server

- Spearheaded the development of web applications with **Java** and **Spring Boot** delivering scalable and robust solutions that strengthened user functionality and engagement by 30%.
- Created front-end modules with **JavaScript** and **ReactJS**, ensuring a responsive interface tailored to user requirements increasing satisfaction by 25%.
- Managed backend operations on **SQL Server**, implementing changes and optimizing stored procedures to improve efficiency by 40% for high-volume transactions.

IpserLab, Houston, USA

Aug 2023 - July 2024

Software Engineer

Tech-Stack: WebRTC, Java, ReactJS, Axios, React Hooks, Material UI, WebSocket, REST API

- Designed a customizable **WebRTC**-based video conferencing platform, allowing organizers to control the conversation format, ensuring real-time communication with **WebSocket** and **REST services**.
- Directed the implementation of responsive event selection options within a tool built on **React** using **Hooks** and **Material UI**; achieved an impressive 30% enhancement in overall data retrieval speeds through optimized coding practices.
- Implemented **backend services** with **Java** and the Bandung library, managing **API** calls and user interactions.
- Designed an API directory to manage **REST API** endpoints for user operations, optimizing **performance** with **Axios** for efficient data fetching, reducing data retrieval time by 25%.
- Collaborated with a team of 15 developers, participating in discussions, design reviews, and implementation using **Agile methodologies**.

Advanced School of Computer Information India, Mumbai, INDIA

July 2019 – Jun 2021

Web Developer Intern

Tech-Stack: WordPress, HTML, CSS, JavaScript, Elementor, WordPress plugins

- Architected web and mobile applications for a school community using **HTML**, **CSS**, **JavaScript**, and **WordPress**, achieving 95% bug-free results and seamless integration of user roles.
- Leveraged **Elementor's** interface and pre-defined templates to develop a responsive website rapidly, enhancing device accessibility.
- Integrated **WordPress plugins** to optimize functionality for **SEO**, user communication **via WPForms**, and caching plugins to boost performance, creating a robust and scalable platform.
- Crafted 10+ key functionalities to boost **user interaction** and engagement, optimizing attendance tracking, real-time updates, and instant notice dispatch for feedback.
- Executed 30+ test cases and conducted functional testing to validate system operations and ensure secure data access for authorized users, improving usability.

PROJECTS

E-commerce Website Tech-Stack: MongoDB, Express.js, React, Node.js, Stripe, Razor Pay

- Developed a MERN application with product filtering, shopping cart functionality, and secure checkout with Stripe and Razorpay, reducing checkout time by 40% and enabling the system to handle 1,000 daily transactions.
- Implemented an admin dashboard for product management, allowing inventory updates and order tracking, improving efficiency by 30%, while using **MongoDB** for storage, **Express.js** for routing, **React** for a UI, and **Node.js** for the backend.

Movie Review App Tech-Stack: Java Spring Boot, React, MongoDB, REST APIs, Bootstrap

- Directed a movie review platform with **Java Spring Boot** for the backend, integrating **REST APIs** for server-side logic and using **MongoDB** for scalable storage solutions.
- Built the front end with **React**, utilizing **Bootstrap** for responsive design, implementing state management with **hooks**, and integrating functionality for adding and retrieving reviews via **HTTP requests**.

SKILLS

- | | |
|---------------------------------|---|
| • Programming Languages: | C++, C#, Java, Python |
| • Web Development: | HTML, CSS, JavaScript, Node.js, ASP.NET, PHP, REST API |
| • Libraries/Frameworks: | Spring Boot, ReactJS, Express.js, Bootstrap, Flask, Tailwind CSS, Material UI |
| • Database/Server: | Oracle, MySQL, SQL Server, Firebase, MongoDB |
| • Software/Tools: | XAMPP, Visual Studio, IntelliJ, WordPress, Git, GitHub, Postman, Swagger |

EDUCATION

- **University of Houston – Clear Lake**, Master of Science in Computer Science
- **University of Mumbai**, Bachelor of Engineering in Computer Engineering
