SKILLS

- **Programming Languages:** Python, SQL, R, Java, C/C++, HTML, CSS, JQL, Unix/Linux Command Line, XML, VBA, SAS
- **Libraries & Frameworks:** NumPy, Pandas, Scikit-learn, TensorFlow, Matplotlib, Plotly, Seaborn, Pytorch, NLTK, Agile, Waterfall
- **Tools:** Git, JIRA, Confluence, Service Now, Databricks, Snowflake, MicroStrategy, Fabric, BigQuery, GA4, GTM, SSIS, SSAS, SPSS
- **BI Tools:** Cognos, QlikView, Tableau, Power BI, Qlik Sense, Looker, SAP Analytics Cloud, SSRS, Excel, Lucid, PowerPoint
- **Database & Cloud Services:** MySQL, MS-SQL, PostgreSQL, Oracle, Redshift, Google Cloud Platform, Azure, AWS, Salesforce

WORK EXPERIENCE

Resilient Communities

Cincinnati, OH

Business Intelligence Engineering Intern

September 2024 – December 2024

- Designed interactive Power BI dashboards with custom DAX calculations and data modeling, helping stakeholders measure the impact Resilient is making and driving decision-making, which increased volunteer participation by 30%.
- Engineered ETL processes using SSIS, Python and SQL to transition data from Excel to a relational database, enhancing data retrieval speed by 40%.

InfoTrust

Cincinnati, OH

Digital Analytics Intern

May 2024 – August 2024

- Implemented a Project Delivery Dashboard using Looker and BigQuery, driving a 15% reduction in project overruns and 20% improvement in revenue recognition.
- Led the transition to GA4 and developed dashboards for consistent reporting of user engagement and conversion insights.
- Built dashboards to track employee performance using Workday/Paycor data, leveraging SQL, Python, for data transformation and reporting, driving HR decision-making.
- Gained proficiency in key analytics tools including Universal Analytics, Google Analytics 4, Google Tag Manager, Looker, and BigQuery, and applied these to develop BI solutions driving actionable marketing strategies.

Tata Consultancy Services

Pune, India

Data & Business Intelligence Engineer

September 2020 – July 2023

- Led ETL operations and database management for over 20 projects annually, achieving a 95% on-time delivery rate for RBC.
- Managed database upgrade projects in collaboration with various teams, ensuring compliance with security standards and improving system performance by 25%.
- Developed and deployed Tableau dashboards to track data governance and security compliance, resolving 90% of P1 security issues ahead of deadlines.
- Enhanced incident response times by 30% through real-time data analysis and automated reporting using JIRA dashboards, improving project tracking efficiency.
- Automated data extraction and report generation using Python and VBA, improving communication efficiency by 40%.
- Awarded 6 On-the-Spot Awards for developing innovative data solutions, improving project delivery and client satisfaction.

TalentSprint

Indore, India

Data Analyst Intern

January 2020 – August 2020

- Leveraged Natural Language Processing to create a sentiment analysis model from student feedback, driving curriculum improvements and achieving a 15% increase in user retention.
- Automated feedback data extraction using Abbyy FlexiCapture's OCR, streamlining the data pipeline for sentiment analysis, and improving processing efficiency.

ACADEMIC PROJECTS

Sudden Cardiac Arrest Prediction Modelling

March 2024

- Built a Python-based prediction models using statistical computing techniques analyzing 1M+ patient records with 95% accuracy.
- Selected a model winner by interpreting scores obtained with and researching about predictive models and their applications.

US Election Dashboard

October 2023

- Constructed a Tableau dashboard analyzing 1.2 million election data points, using SQL for database management and Python for data manipulation.
- Identified key trends through advanced statistical methods and interactive visualizations, aiding strategic decision-making.

COVID 19 Predictive Dashboard

July 2020

- Created a COVID-19 dashboard with a 92% accurate forecasting model using time-series analysis and ETL pipelines to gather data from diverse data sources.
- Delivered interactive visualizations with Plotly and conducted sentiment analysis on Twitter data, integrating findings into a multilingual chatbot for improved user engagement.

EDUCATION

University of Cincinnati, Carl H. Lindner College of Business

Cincinnati, OH

Master of Science, Information Systems

August 2023 – December 2024

- Graduate Certificate Program - **Data Analytics**
- Relevant Coursework: **Data Visualization, Data Warehousing, Data Modelling, Supply Chain Management, Finance, Marketing**

Medi-Caps University

Indore, India

Bachelor of Technology, Computer Science

August 2016 – June 2020

- Relevant Coursework: **Data Science, Machine Learning, Data Structures & Algorithms, Object-Oriented Programming, DBMS**
