EDUCATION

University of California, USA Master of Science in Business Analytics	Sept 2024 - Dec 2025
Pune University-Fergusson College, India Master of Computer Science	Jun 2017 - Jun 2019
Pune University-H. V Desai College, India Bachelor of Computer Science	Jun 2014 - May 2017

SKILLS

Programming: Python (Pandas, NumPy), R, Java, DAX

Data & Querying: SQL, Data Extraction, Google Big Query, Power Query

Cloud Platforms & Tools: Google Cloud Platform (**GCP**), Snowflake, Jira, Confluence, Microsoft Office, Git

Data Visualization Tools: Power BI (Semantic Models, Interactive Dashboards), Tableau, Looker

Data Analysis & Modeling: Data transformation & Validation, Trend Analysis, KPI Tracking, Statistical Modeling

Collaboration: Stakeholder Communication, Agile Methodologies, Documentation

PROFESSIONAL EXPERIENCE

DATA ANALYST INTERN - Opry Entertainment Group	Jul 2025 - Sept 2025
- Migrated and rebuilt existing dashboards from Datorama to Power BI with DAX measures and interactive visuals, improving reporting accuracy and driving a 30% increase in adoption among senior leaders - Designed entertainment-focused interactive dashboards to monitor KPIs like ticket sales, event attendance, retention, and campaign performance, enabling data-driven decisions that enhanced customer experience and revenue - Partnered with marketing and analytics teams to test data-driven solutions for audience targeting, boosting campaign efficiency by 20% and strengthening ROI measurement - Validated and modeled large datasets to ensure metric accuracy and transform raw data into actionable insights, cutting reporting errors by 15% and helping stakeholders identify performance drivers	
ANALYST ENGINEER - Equifax Analytics	May 2024 - Aug 2024
- Developed and optimized complex SQL queries to extract insights from structured and unstructured datasets, improving reporting accuracy by 25% - Built reproducible analytical pipelines involving regression analysis and anomaly detection, enabling faster business issue resolution - Delivered actionable insights to business stakeholders through compelling Power BI dashboards and visual storytelling, enhancing cross-department decision-making - Collaborated with QA, Product Owners, and business analysts to align data deliverables with strategic business goals - Authored clear documentation on data pipelines and analytical models to ensure transparency and reusability	
SOFTWARE ENGINEER - TekSystems	May 2022 - Sept 2023
- Designed and maintained ETL pipelines for credit card transactions analytics using Python and SQL, reducing response time by 30% - Developed RESTful APIs to standardize data access across internal teams, enhancing customer service response by 40% - Collaborated within Agile teams to enhance microservices using Spring Boot, improving performance by 25%	
SOFTWARE ENGINEER - Allianz Technology SE	Sept 2019 - May 2022
Developed and optimized digital insurance platform by implementing rule-based premium calculation logic and integrating SQL-based validation checks, analyzing large policy datasets to ensure pricing accuracy, streamlining data flows and maintaining data integrity through Git based collaboration and documentation	

PROJECT

Airbnb Data Analysis and Predictive Model Development	Sept 2024 - Dec 2024
Engineered and modeled hotel booking data in Python, R using Linear Regression, Random Forest, and Time Series to forecast occupancy and pricing trends with 85% accuracy	

CERTIFICATION

Data Classification and Summarization Using IBM Granite - IBM Skills Build	Oct 2025
