EDUCATION

California State University

M.S. Information System, GPA: 4.0

GSSSITEW, Mysore

Bachelor of Engineering, GPA: 3.14

Long Beach, CA

May 2022

Mysore, India

June 2012

WORK EXPERIENCE

City National Bank, Los Angeles, CA

Senior Data Analyst

Oct 2022- Present

- Collaborated with data domain teams and key report owners to identify critical data elements (CDE) for the key reports and business processes, ensuring the application of CDE standards of care through data governance practices such as data lineage and data quality, metadata management, enterprise data management.
- Built and documented a detailed questionnaire in partnership with data stakeholders, maintaining data integrity and consistency across 30+ systems, reducing data-related errors by 40% and ensuring compliance with regulatory standards.
- Improved data quality and data accuracy of the database elements to 80% by implementing the data quality rules through SQL queries.

Accenture Services, India

Senior Software Engineer

July 2015-June 2018

- Developed comprehensive interactive report which generated the CSV files based on Delivery and shipping manifests, reduced the manual workload and helped in easy upload of files to third party systems.
- Implemented a robust workflow that performs the approval-rejection process, sends the notification to the prescribed vendors upon approval from authorized users.
- Facilitated data extraction, data interpretation, and analysis using SQL queries and mapped data from Cloud System (ARIBA) to ERP(SAP).
- Customized a BADI Implementation class for Purchase Order, Confirm Order and Update/Reject Orders that interacts and collects data from Cloud platform.

Wipro Technologies, India

Software Engineer

Apr 2013 – Jul 2015

- Interacted directly with client SMEs to gather and translate business requirements into technical and functional design documents; helping the client and higher management develop an efficient plan for timely execution.
 - Analyzed and optimized existing SQL queries with good debugging skills and improved the effectiveness by 20%.
 - Designed and delivered a complex Sales Order Smartform with a minimum time bound, helped the client to generate the sales orders in efficient way.
-

ACADEMIC PROJECTS

- **Authenticity:** Analyzed and identified the percentage of fake news spread over the social media platforms and other websites. Used a COVID related dataset, cleaned the dataset using Tableau prep builder and created visualizations using Tableau.
 - Developed a Web Application involving CRUD operations. Used JavaScript, HTML, Bootstrap and Postgress SQL.
 - Authored a White Paper on “**Study on No-SQL VS Relational Database**”.
-

SKILLS

Tools and Environment: SQL Developer, MongoDB, SAP NetWeaver, PostgreSQL, MS Excel, Tableau, Power BI, SAP Data Services, Informatica Analyst, Informatica IDQ, Informatica Axon, Collibra, Jupiter networks.

Methodologies: SDLC, Agile/Scrum, Waterfall

Programming: Python (Pandas, NumPy), JavaScript, HTML, CSS, SQL, No SQL, SAP ABAP, AWS, Machine Learning algorithms, Statistics, Power Query.

Certifications: IBM Enterprise Design Thinking Practitioner, IBM Enterprise Design Thinking-Team Essentials for AI, IBM Enterprise Design Thinking- Co-Creator, AWS Academy Machine Learning Foundations.
