

LEELA BHARANI TEDDU

Dallas, TX • (512) 665-2091 • leelabharani.teddu@gmail.com • <https://www.linkedin.com/in/leelabharaniteddu/>

EDUCATION

THE GEORGE WASHINGTON UNIVERSITY, School of Business

Washington, DC

Master of Science, Business Analytics (GPA: 3.32)

December 2023

INDIAN INSTITUTE OF TECHNOLOGY, SME

Jodhpur, India

Master of Business Administration (GPA: 3)

December 2023

SASTRA UNIVERSITY

Thanjavur, India

Bachelor of Technology in Electronics & Instrumentation (GPA: 3.51)

June 2020

RELEVANT PROJECTS

Telecom Churn Prediction

Python

Leveraged Telco Customer Churn dataset to develop a predictive model to forecast customer behavior. Conducted in-depth analysis of customer demographics, service distribution, and identified key factors influencing customer churn.

Credit Line Predictive Model

Python, AWS

Analyzed data to explore encoded circumstances in determining credit approvals for customer of various ethnic background. Executed multiple Linear Regression in Python and created decision tree on training data and constructed a safe model.

TECHNICAL SUMMARY

Tools: R, SQL, Python, Power BI, Tableau, SAS, JMP, Alteryx, JAVA, Microsoft Office Suite, PyCharm, Stata, MS Excel, AWS, R-Studio, Google Cloud Platform, Git, Salesforce, Oracle, JIRA, Looker, Google Analytics, Snowflake, Mixpanel, Flurry, Google Analytics, Figma, Visio, SPSS, User analytics.

Skills: Sprint Backlog Management, Product Management, Scrum, Agile Methodologies, Project Management, Stakeholder Management, User Interviews, Leadership, A/B testing, Pilot testing, Beta Testing, Early adopter testing, Lean Methodology.

EXPERIENCE

RELATIVITY

Washington, DC

Business Analyst (Capstone Project)

September 2023 - December 2023

- Designed and executed red team testing methodologies and E-discovery techniques, including scenario-based simulations to evaluate the Adversarial Analysis of Large Language Models (LLM).
- Orchestrated 10+ project requirement gathering sessions, resulted in the creation of 30+ actionable user stories, documentation using tools such as **MS Excel**, **Seamless Docs**, **Visio**.
- Performed **Risk analysis** by utilizing prompt engineering with **Generative AI** and identified potential threats to the **Compliance** and **security**. Presented data-driven insights and project outcomes using MS PowerPoint.
- Managed project tasks and workflows in **Asana**, ensuring seamless coordination between cross-functional teams and timely delivery of project milestones.

WOLFSPEED Inc.

North Carolina, USA

Business Analyst

May 2023 - August 2023

- Developed an anomaly detection system for semiconductor wafers using **Machine Learning** Algorithm like Convolutional Autoencoder.
- Led requirements gathering, collaborated with cross-functional teams to enhance project's analytical frameworks.
- Developed **SQL queries** to extract complex data, conducted data analysis and created more than 20 visualization dashboards, generated daily ad hoc analysis using **MS Power BI**, **JMP** to report progress & insights on wafer mapping metrics.
- Developed and implemented linear regression using **Python** to forecast model accuracy for outlier detection.
- Translated **business requirements** into analytical queries, performed feature engineering, **data cleaning**, trained and tested prototype model, improved accuracy to 85%.
- Performed **statistical analysis** to identify outliers using **MS Excel**, **SAS** and presented key findings & actionable insights using **MS PowerPoint** and provided feedback on key features, models & performance metrics.

HINDUSTAN PETROLEUM CORPORATION LTD, HPCL

Visakhapatnam, India

Financial Analyst

April 2022 - June 2022

- Supported impact reporting functions by performing portfolio risk and return analysis, and prepared detailed reports on capital structure and sales analysis of petrochemical products using **SAS**.
- Collaborated with cross-functional teams to gather requirements and report project outcomes.
- Conducted ad-hoc portfolio analyses, identified key trends and provided actionable insights to key stakeholders using **Tableau**, **MS Excel** and delivered comprehensive reports using **MS PowerPoint**.
- Performed market research and competitor analysis using strategic frameworks such as **GTM**, **SWOT** providing insights on market positioning and operational improvements.

ADDITIONAL INFORMATION:

Research Publication: Electrospun Cobalt nanoparticles and its methanol detection property. ([Link](#)). Jan 2021. Conducted comprehensive literature survey, utilized quantitative analysis (SAS, Excel).

Leadership: Led a team of coordinators of media committee in IITJ, managed social media, live streaming, advertising.

Graduate Teaching Assistant: Supported faculty teaching needs in operations management course and delivered a range of teaching and assessment activities including tutorials at graduate level.

Academic Awards: GW School of Business Fellowship Award 2022.
