EDUCATION

GEORGIA STATE UNIVERSITY

Bachelor of Business Administration

Atlanta, GA

Expected July 2025

Major in Computer Information Systems; Concentration in Data Analytics

Cumulative GPA: 3.4/4.0; Dean's List 2023-2024

Relevant Coursework: Intro to Programming, Statistics, Systems Analysis, Data Programming, Business Analysis,

Machine Learning Analytics, Database Management, Managing IT Projects, Unstructured Data Management

WORK EXPERIENCE

OGLETHORPE POWER CORPORATION

Tucker, GA

Data Analyst Co-op

Aug 2024 – Present

- Developed data pipelines using Databricks (SQL & PySpark) within Microsoft Azure, cleaning and transforming 40,000+ records for weekly and monthly reporting
- Designed clean, user-friendly visuals and reports by formatting graphs and metrics in Power BI and Excel dashboards with DAX to visualize KPIs and trends, enhancing decision-making clarity for stakeholders
- Streamlined data processes by automating Excel tasks using VBA and Python, reducing manual data prep time and error rates across operations

INFOR

Alpharetta, GA

Business Analyst Intern

May 2024 – Aug 2024

- Facilitated cross-team collaboration by gathering business requirements from IT and Marketing, leveraging Salesforce CRM to assess system impact and improve stakeholder alignment
- Developed structured business process flows in Lucidchart, reducing miscommunication and cutting onboarding time for new users by 25%
- Improved project visibility and stakeholder engagement by utilizing JIRA to track project phases, ensuring timely updates and seamless communication between teams

THE HOME DEPOT

Dacula, GA

Customer Service Specialist

Apr 2022 – May 2024

- Arrange and schedule timely deliveries, resolving scheduling issues, and addressing service failures while maintaining departmental policies and procedures
- Clarified field customer inquiries, delivering swift and accurate responses and actively partnering with sales teams to collaboratively surpass customer service expectations

UNIVERSITY PROJECTS

Youth Risk Behavior Surveillance System (YRBSS) Data Analysis — *Python (Pandas, NumPy, Seaborn)*

2024

- Cleaned and analyzed 962,925 records across 150 variables from CDC's YRBSS dataset
- Investigated correlations between bullying, mental health, substance use, and academic performance
- Delivered insights through visual storytelling using line, bar, pie, and stacked bar charts

Gen Z vs Older Generations: Alcohol Consumption Patterns — *R (dplyr, ggplot2, tidytext)*

2025

- Analyzed EU public health data to compare drinking frequency across age groups by income and gender
- Applied topic modeling to Reddit posts, identifying cost and health awareness as key Gen Z drivers
- Created visual reports with actionable insights for alcohol companies on pricing and marketing

IMDB Movie Ratings Analysis with Business Case Modeling — *R*

2025

- Modeled relationships between metadata (genre, budget, director) and IMDB ratings
- Applied data partitioning, feature engineering, and preprocessing to improve model accuracy
- Developed a business use-case scenario and presented findings in a stakeholder-ready format

SKILLS

Technical Skills: Proficient in SQL, R, Python, Excel, Tableau, Power BI, Data Analysis, Documentation, Salesforce, PowerPoint, JIRA, Lucidchart, Data Cleaning, Web Scraping, Databricks, Data Visualization, Pyspark, Microsoft Azure.

Soft Skills: Collaboration, Attention to Detail, Critical Thinking, Data Storytelling, Problem Solving, Adaptability

Certifications & Training: Google Data Analytics Professional Certificate, Kaggle Data Visualization, Databricks Fundamentals
