Software Developer

Software Developer with 4+ years of professional experience designing, developing, testing, deploying, and supporting web applications. Strong expertise in ASP.NET MVC, .NET Core, C#, JavaScript, Angular, and T-SQL, with a solid foundation in object-oriented design, web application architecture, and relational database design. Proven ability to deliver scalable, performance-focused, mission-critical systems, perform code and design reviews, and mentor developers within cross-functional teams.

SKILLS

Programming Languages: C#, JavaScript, TypeScript

Frameworks & Libraries: Angular, ASP.NET, Dapper, Entity Framework, Microservices, MVC, .NET Core

Databases: SQL Queries, SQL Server, Stored Procedures, T-SQL

APIs & Integrations: Facebook Graph API, Instagram API, RapidAPI, REST APIs, YouTube API

Tools & Platforms: CI/CD Tools, Git, Postman, Selenium, Visual Studio, VS Code

WORK EXPERIENCE

Syscrowd • Karachi, Pakistan • 05/2021 – 06/2025

Senior Software Engineer

- Designed, developed, tested, deployed, and supported complex web applications using .NET Core, ASP.NET MVC, C#, and JavaScript in an Agile development environment, based on business requirements and coding standards.
- Delivered scalable, performance-focused backend services and RESTful APIs supporting mission-critical applications.
- Optimized SQL Server database design, T-SQL queries, and stored procedures to improve application performance and responsiveness.
- Performed code reviews to maintain code quality, performance, and architectural consistency.
- Built and maintained reusable Angular components and modules to enhance frontend responsiveness and development efficiency.
- Assisted with project planning and architectural design discussions in collaboration with cross-functional teams.
- Integrated and managed third-party services and APIs via RapidAPI with robust error handling and reliability.
- Automated workflows and scheduled tasks using Selenium, improving operational efficiency and reducing manual effort.
- Implemented social media automation using Facebook Graph API, YouTube, and Instagram APIs to centralize publishing and analytics workflows.

Software Engineer

- Developed new Angular components and integrated backend APIs to improve feature delivery and application scalability.
- Enhanced user experience through improved data binding and API-to-UI mapping.
- Collaborated with senior engineers to support development best practices and ensure process consistency.

Assistant Software Engineer

- Maintained and enhanced frontend modules using Angular, JavaScript, HTML, and CSS.
- Debugged and resolved UI defects, improving application stability and reliability.
- Supported senior developers in delivering team objectives and meeting project deadlines.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Dadabhoy Institute of Higher Education • Karachi, Pakistan • GPA: 3.0

Advanced Diploma in Software Engineering

Aptech Computer Education • Karachi, Pakistan • GPA: A+
