EXPERIENCE

UX / UI Designer – Insight Global | Internship

Aug 2024 – Dec 2024

- Conducted user research to enhance workforce management using surveys, card sorting, and competitive analysis, mapping user flows to enhance accessibility, developed personas, and designed documentation to improve usability and productivity.
- Led an agile team in developing a scalable design system and reusable Figma templates for a B2B FSM app, enhancing consistency, usability, and increasing engagement by 15%.
- Collaborated with Product Owners and Engineers to deploy a scalable design system, ensuring seamless integration with backend workflows using Azure SQL, improving usability and scalability.
- Presented strategic product vision and prototype to leadership, aligning UX solutions with business objectives and highlighting opportunities for AI-driven enhancements.

UX / UI Designer | University of Texas at Dallas | Texas

Oct 2023 - Dec 2024

- Designed a user-centered interface for the UT Dallas Enrollment Services website, leveraging UX research and content strategy to improve accessibility and navigation, boosting applicant engagement by 15%.
- Optimized the applicant journey through A/B testing, reducing churn rates by 10% and enhancing overall navigation and user experience.
- Conducted user research and workflow analysis using Google Analytics, identifying pain points and improving accessibility, minimizing errors in the applicant process.

User Experience Optimization Specialist | Alle Interior Design | India

Nov 2021 - Nov 2022

- Boosted revenue by 30% by strategizing and executing data-driven digital marketing campaigns using Google Analytics and Tableau, optimizing performance through detailed keyword analysis and audience insights.
- Enhanced customer experience and website performance by identifying and resolving key user funnel pain points using Google Analytics and heatmaps (Microsoft Clarity), resulting in a 30% faster load speed and improved conversion rates by 20%.
- Elevated campaign tracking and reporting by integrating tracking codes via Google Tag Manager, ensuring precise data collection that fueled optimization strategies and boosted campaign performance.
- Refined ad engagement and conversions by executing A/B tests on email campaigns and landing pages using HubSpot CRM, leveraging behavioral data to optimize messaging and audience targeting.

PROJECTS

UI/UX Design – E-Commerce Website (Sports Apparel)

Sep 2023 - Dec 2023

- Conducted market research by analyzing audience demographics, search trends, and competitor strategies using Google Ads insights and LinkedIn Sales Navigator.
- Designed and developed a user-friendly WordPress eCommerce platform, implementing intuitive navigation, responsive layouts, and optimized typography to enhance readability and brand consistency.
- Implemented A/B testing on product pages, typography styles, and CTA placements, optimizing visual hierarchy to boost user engagement and increase conversion rates by 10%.
- Ensured WCAG 2.1 compliance, enhancing website accessibility and usability, which increased engagement and elevated the overall user experience for a diverse audience.
- Designed and managed a WordPress-based e-commerce website, optimizing content and meta-tags with HTML for improved SEO, resulting in a 10% increase in organic traffic.
- Leveraged Google Analytics and Microsoft Clarity to diagnose high bounce rates on product pages, enhancing image load speed and CTA placement, resulting in a 10% reduction in bounce rates and increased engagement.

LEADERSHIP

INFORMS | The University of Texas at Dallas

Sep 2023 - Dec 2024

- Led social media campaigns to promote INFORMS events, creating platform-specific content with Canva and engaging with followers on LinkedIn and Instagram to increase event attendance by 15%
