Results-oriented professional with +2 years of expertise in business analytics, AI integration, process automation, and project management. Skilled at leveraging machine learning and advanced data analytics tools to drive innovation and optimize workflows. Adept at blending technical proficiency with business acumen to deliver scalable AI-powered solutions that enhance operational efficiency and revenue growth.

KEY SKILLS

- **Technical Skills:** SQL, RStudio, Python, Microsoft Excel, PowerBI, Tableau, AWS Bedrock, Microsoft Copilot, Claude, Wolfram, Figma, Jira, NVivo, Azure OpenAI, Gemini Code Assist, Metaverse Oculus
- **Data Analytics:** Statistical Modeling, Machine Learning, Predictive Analytics, Data Visualization, Market Analytics
- **Tech Automation:** AI Integration, Technology Integration, Workflow Optimization, Process Automation
- **Strategic Skills:** C-level Presentation, Business Model Analysis, Project Management, Client Relationship Management

PROFESSIONAL EXPERIENCE

Business Analyst - Bosch Home Comfort (GIES)

Chicago, IL | Jan - May 2025

- Designed & deployed a machine learning model to identify fraudulent warranty claims, improving detection accuracy and reducing financial losses
- Led exploratory data analysis and funnel-based classification on 10 years of historical claims and supply chain data to identify high-risk distributor behavior
- Conducted benchmarking of industry fraud detection models, using findings to guide feature engineering and risk segmentation
- Developed a tiered risk scoring solution, with actionable insights that influenced process automation, improved fraud triage, and strengthened risk management strategies

AI Strategy Consultant - Illinois Business Consulting

Champaign, IL | Jan - May 2025

- Conducted AI feasibility assessments, competitor benchmarking study, and supply chain analysis to develop a forward-looking product roadmap for smart residential pool systems, aligned with the client's growth objective.
- Analyzed product telemetry, feature usage & integration limitations to identify automation opportunities and enhance the smart device ecosystem
- Collaborated with cross-functional teams to consolidate stakeholder insights and user behavior data, prioritizing features based on technical feasibility and customer value
- Proposed a suite of AI-powered product enhancements (e.g., predictive maintenance, adaptive scheduling) with supporting ROI models and market adoption forecasts

Business Analyst - Wolters Kluwer (GIES)

Chicago, IL | Aug - Dec 2024

- Analyzed large-scale financial and healthcare datasets to identify key value drivers and high-impact monetization opportunities
- Conducted in-depth consumer experience analysis, market and competitor analysis to identify consumer pain points
- Evaluated data integration platform and AI product suites to support revenue-generating use cases
- Delivered a comprehensive data monetization playbook with an AI adoption roadmap, enabling senior stakeholders to define strategic decisions for data-driven growth

Applied Innovation Exchange (AIE) Intern - Capgemini

Singapore | Jun - Dec 2023

- Facilitated over 15 Accelerated Solution Environments (ASE) workshops across financial, consumer, and healthcare sectors to rapidly ideate and validate AI-driven interventions
- Engaged client and internal stakeholders to analyze operational workflows, identify process inefficiencies, and recommend AI-based solutions rooted in root-cause analysis
- Collaborated with global cross-functional teams to design and execute client-specific AI solution architectures, aligning with strategic business objectives and emerging technology trends
- Co-developed Generative AI bots and integrated a Metaverse Lab to prototype immersive & interactive solutions for real-world use cases

EDUCATION

University of Illinois Urbana-Champaign, Gies College of Business
