

NITHEESHA MANDYAM

+1 940 210 4922 | Gmail: mandyamnitheeshareddy@gmail.com | LinkedIn: <https://www.linkedin.com/in/nitheesha-mandyam-935383219>

Profile Summary:

- Data Analyst proficient in SQL, Python, and Tableau, with expertise in transforming complex data into actionable insights.
- Skilled in statistical analysis, predictive modeling, and data visualization to drive business decisions.
- Experienced in working with cloud platforms (Snowflake, Google BigQuery, AWS Redshift) and ETL optimization.
- Passionate about leveraging data to enhance efficiency and support organizational success.

Technical Skills:

- Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), R
- Database Management: SQL, MySQL, PostgreSQL
- Data Visualization Tools: Tableau, Power BI, Excel (Advanced)
- Statistical Analysis: Regression analysis, Hypothesis testing, ANOVA, Clustering
- Big Data Technologies: Apache Spark, Hadoop
- Cloud Platforms: Google BigQuery, Amazon Redshift, Snowflake
- ETL Tools: Alteryx, Talend, SQL-based ETL processes
- Reporting Tools: Microsoft Excel (Pivot Tables, Power Query), Google Data Studio
- Machine Learning: Predictive modeling, Classification, Clustering algorithms
- Data Warehousing: Data modeling, Schema design, and Management
- Version Control: Git, GitHub
- Other Tools: Jupyter Notebook, Visual Studio Code (VS Code)

Education:

University of North Texas
Master's in Computer Science

Aug 2024 – May 2025
GPA: 3.77/4.0

Projects:

SENTIMENTAL ANALYSIS ON AMAZON PRODUCT |Python, NLP, Tableau|

Sentimental analysis is the automatic process of identifying positive, negative, and neutral emotions in text. Conducted sentiment analysis on Amazon product reviews for "Screen Protectors" using Natural Language Processing (NLP). Performed web scraping to collect data, followed by text preprocessing (tokenization, stemming, stopword removal). Applied classification algorithms to categorize reviews as positive, neutral, or negative. Visualized insights using bar plots, pie charts, and word clouds in Tableau.

MUSIC RECOMMENDATIONSYSTEM |python, OpenCV|

a novel approach that helps the user to automatically play songs according to the emotions of the user. Used OpenCV and conda music player packages in order to code the project. Integrated ML-based emotion classification with an automated music player to recommend songs based on detected emotions.

Student Station |Python|, Visual Studio code, HTML, CSS, SQL, Java Script|

Designed and built a secure e-commerce platform for students to purchase books online. Implemented user authentication, secure payments (APIs), and hashing algorithms for password security. Optimized database queries to improve performance and ensure data integrity.

Internship and Achievements:

- **InternBug -Campus Ambassador Program** – contributed to marketing strategies and worked on coding projects related to data analytics.
- **IBM Hackathon –Intelligent Customer Document Understanding** – Developed a document processing solution for analysing customer documents using NLP and ML algorithms.
- **GUVI Guinness World Record Event** – created a Face Recognition Application using Python as part of a world record event

Paper publications:

- IMPORTANCE OF DEVOPS IN DEVELOPING PRODUCTS FOR USERS -Publication in conference proceeding with ISB.
- IMPORTANCE OF WIRELESS COMMUNICATION IN EXTREME ENVIRONMENTS

Extracurricular:

Student Assistant – Catering (Part-time) – UNT

Aug 2023 – May 2025

As a Food service student Assistant, my responsibilities included preparing and organizing food, coordinating with kitchen staff, and maintaining cleanliness and safety standards. I developed strong teamwork and communication skills, while also gaining experience in time management and problem-solving in a fast-paced environment.

Certifications:

- Python for Everybody (Coursera)
- Technical Writing (Coursera)
- Python 101 for Data Science (Cognitive Class)
- Introduction to Data Science (Cognitive Class)
- IBM Cloud Essentials –V3 (Cognitive Class)
- Machine Learning with Python(Cognitive Class)
- Employability Test Certificate (AMCAT)
