

# Pedro Uria Rodriguez

Arlington, VA - Available to relocate | (202) 655-0778 | [pedrouriar@icloud.com](mailto:pedrouriar@icloud.com)  
[linkedin.com/in/pedrouriar](https://www.linkedin.com/in/pedrouriar) | [github.com/PedroUria](https://github.com/PedroUria)

## EDUCATION

---

The George Washington University, Washington, DC Anticipated May 2020  
**Master of Science, Data Science - GPA 4.0**  
*Relevant Coursework:* Machine Learning, NLP, Cloud Computing, Bayesian Methods, Data Warehousing

University of Oviedo, Oviedo, Spain Sep 2013 - Jul 2018  
**Bachelor of Science, Physics**  
*Relevant Coursework:* Computational Physics, Numerical Methods

## TECHNICAL SKILLS

---

**Programming Languages:** Python, SQL, R, MATLAB, JavaScript  
**Machine Learning & Applications:** Data Preprocessing, Supervised Learning, Unsupervised Learning, Deep Learning, Natural Language Processing (NLP), Computer Vision  
**Operating Systems:** Linux, macOS, Windows  
**Tools:** PyTorch, TensorFlow, Keras, NumPy, Pandas, Matplotlib, SciPy, Sklearn, OpenCV, Raspberry Pi, NLTK, spaCy, BeautifulSoup, PyAutoGUI, PyQt, Django, HTML, CSS, JAGS, AWS, GCP, Git, LaTeX

## WORK EXPERIENCE

---

**MaxOne**, Washington, DC Jan 2020 - Current  
**Data Science Intern**

- Score basketball free throw posture through mobile application by using computer vision and deep learning on front-facing camera videos

**The George Washington University**, Washington, DC Aug 2019 - Dec 2019  
**Machine Learning II Graduate Assistant**

- Created deep learning coding examples and exercises of increasing complexity in [PyTorch](#), [TensorFlow 2](#) and [Keras](#) to support student learning objectives
- Designed and developed midterm and final exams in 7 day Kaggle competition format; wrote script in Python to automate leaderboard and show student model daily performance

**American Institutes for Research**, Washington, DC May 2019 - Aug 2019  
**Software Engineering Intern**

- Researched, adapted and trained state-of-the-art Neural Language Models in PyTorch to grade state standardized testing student essays
- Improved current performance by 3% by conducting multiple experiments on parallel GPUs in AWS

**The George Washington University**, Washington, DC Jan 2019 - Aug 2019  
**Machine Learning I Graduate Assistant**

- Taught whiteboard and coding lecture on Normal and Regularized Regression via Gradient Descent
- Graded and provided meaningful feedback on vast range of traditional Machine Learning concepts, models and techniques

## TECHNICAL PROJECTS

---

**Classical Music Generation** | Python | [www.lstmmusic.com](http://www.lstmmusic.com) Mar 2019 - Apr 2019

- Designed and trained LSTM models that generate original [polyphonic and monophonic](#) compositions by learning the musical language style of classical authors

**Movie Script Processing** | Python Feb 2019 - May 2019

- Clustered movie characters into speech pattern groups by processing movie screenplays, engineering text features and training Machine Learning models using NLTK and Sklearn

**Oscars Predictions** | R Dec 2018 - Jan 2019

- Predicted Oscar winners with 97% accuracy by developing and training Machine Learning models
