Trained 50+ learners and improved project outcomes through guided learning. Skilled in data modeling, integrating reporting components, problem-solving, and project management. Proven ability to extract insights from complex data to support business decisions and improve efficiency by automating the procedure.

SKILLS

Tools/Technologies: Python, SQL, PL/SQL, Tableau, Power BI, Azure, Jira, Google Analytics, Salesforce, Lean Six Sigma, Machine Learning, Probability and Statistics

Microsoft Office Suite: Word, PowerPoint, Advanced Excel

Key Competencies: Creativity and Problem-Solving, Decision Making, Organizational, Communication, Analytical Skills, Agile Methodologies, ETL Processes, Strategic Thinking, Project Management, Group Facilitation, Adaptability, Time Management

WORK HISTORY

Grownited Private Limited | Ahmedabad, India

Dec 2023 – Jan 2025

Data Analyst

- Automated extraction of data from 500+ PDFs using Python, significantly reducing manual effort and enabling faster, more accurate data processing for reporting and analysis.
- Cleaned and merged data from multiple sources using Python (pandas) and Power Query, improving data consistency and cutting manual prep time by about 30%.
- Created interactive dashboards in Power BI and Excel to visualize key nutrition product metrics, increasing stakeholder engagement and enabling data-driven decisions.
- Queried and analyzed customer and sales data using SQL to identify trends in retention and revenue, supporting marketing strategies to improve customer loyalty by 15%.
- Optimized Salesforce CRM workflows by cleaning data and creating dashboards, improving lead tracking accuracy by 30% and enabling the sales team to focus on high-value opportunities.
- Organized and tracked data project tasks using JIRA, improving transparency and team coordination, resulting in 95% on-time delivery of analytics projects.

Royal Technosoft Pvt. Ltd. | Ahmedabad, India

Sep 2022 – Dec 2023

Data Analyst Tutor

- Trained and mentored over 50 students in data analysis, SQL, Python, Excel, and data visualization, leading to a 90% satisfaction rate and stronger portfolios.
- Designed structured learning paths and provided hands-on project support, improving students' project completion rates by 35% and significantly enhancing their confidence and practical skills.

PROJECTS

Dunnhumby Analysis

- Leveraged PostgreSQL to conduct in-depth analysis of customer trends, generating reports that highlighted the top 10% of high-value customers, directly influencing new loyalty program initiatives and increasing repeat purchases.

Nutritional Products Analysis

- Utilized Python and Power Query to extract and preprocess data from numerous PDFs, then applied SQL, Power BI, and statistical techniques to identify trends and generate meaningful business insights.

Financial Loan Analysis

- Examine loan data using Tableau and MySQL to uncover lending patterns, assess risk, and deliver insights on borrower demographics and repayment trends, contributing to 20% improvement in portfolio optimization strategies.

EDUCATION

Bachelor of Technology, Computer Engineering

Oct 2024

Bhagwan Mahavir University | Surat, India

- GPA: 3.74

Data Science Course

Aug 2022

Royal Technosoft | Ahmedabad, India

CERTIFICATION

Oracle Cloud Infrastructure 2024 Generative AI Certified Professional

Jul 2024
