PROFESSIONAL WORK EXPERIENCE

YARDI SOFTWARE INDIA PVT. LTD

Pune, India

Data Analyst

August 2019- May 2022

- Designed, implemented, and optimized **ETL pipelines** to ingest and transform 100+ real estate datasets, improving processing efficiency by 15%
- Developed and maintained complex data models using **SQL**(views, stored procedures, functions) supporting business intelligence across 1,000+ active cases
- Utilized **Snowflake** for cloud-based data warehousing and secure data sharing, enabling scalable analytics and reducing query run time by 40%
- Engineered automation routines for recurring data loads and reporting, eliminating 25+ hours/month of manual tasks
- Collaborated with cross-functional teams to integrate data from CRM, finance, and operations platforms into centralized reporting databases
- Created detailed SSRS and SQL Columnar reports to track sales pipeline, leasing activity, and customer engagement metrics for 100+ clients
- Built interactive dashboards in **Power BI** and **Tableau** to visualize KPIs and support business decisions across marketing and sales teams
- Conducted root-cause analysis and resolved 250+ **CRM lifecycle** and data integrity issues, contributing to a consistent 95%+ client satisfaction score
- Performed extensive **data validation, cleaning**, and schema alignment to ensure high-quality data across internal systems and external client feeds
- Participated in **agile** sprint planning and retrospectives, collaborating with engineers, QA, and product managers to align data deliverables

TATA CONSULTANCY SERVICES

Pune, India

Data Analyst Intern

June 2018 – December 2018

- **Analyzed and processed large datasets** from ADAS (Autonomous Driver-Assistance System) datasets, performing **data cleaning**, transformation, and visualization to support system optimization
- Conducted statistical analysis and **created insightful reports** using **Excel**, improving the understanding of system behavior and enhancing decision-making by the development team

TECHNICAL PROJECTS

CYCLISTIC BIKE-SHARE ANALYSIS | Google Data Analytics

Domain: Data Analysis, Business Intelligence ([GitHub](#))

Analyzed Cyclic's bike-share data to understand differences in ride behavior between casual riders and annual members. Processed large datasets using **Power Query** and created visualizations in **Excel** to identify trends in ride duration, seasonal usage, and commuting patterns. Proposed data-driven marketing strategies to increase annual membership

Tech Stack: Excel, Power Query, Pivot Tables, Data Visualization, Business Analytics

CRICKET DATA INSIGHTS WITH SNOWFLAKE | Personal Project

Domain: Cloud Analytics, BI([GitHub](#))

Designed a Snowflake-based analytics solution to evaluate cricket match statistics. Created fact and dimension tables to support **star-schema modeling**, optimized queries for **match KPIs**, and designed **interactive dashboards** in Snowflake to track scoring trends, bowling economy, and player impact across matches.

Tech Stack: Snowflake, SQL, Data Modeling, Snowsight

AMAZON REVIEWS DATA ANALYSIS | NEU | Data Science

Domain: NLP, Web Scraping, Classification ([GitHub](#))

Analyzed customer reviews from Amazon to perform sentiment analysis using a Naïve Bayes classifier. The project involved **scraping data**, preprocessing text, and **classifying** reviews into positive or negative categories

Tech Stack: Python, BeautifulSoup, Pandas, Scikit-learn, CountVectorizer, Naive Bayes Classifier, Excel

EDUCATION

Northeastern University: Master of Science, Information Systems, Boston, MA

September 2022-May 2024

Related Coursework – Generative AI, Data Science Engineering, Advances in Data Science, Business Analysis

University of Pune: Bachelor of Technology, Computer Science, Pune, India

July 2015-May 2019

Related Coursework - Database Management Systems, Data structures, Design and Analysis of Algorithms

TECHNICAL SKILLS

Data Visualization tools: Tableau, [Power BI](#), Excel

Databases: SQL, Snowflake, MySQL, MongoDB, PostgreSQL, Oracle Database, DynamoDB

Programming: Python(Pandas, Numpy, Matplotlib), R

Others: Microsoft SQL server, Git, Jupyter, Google Colab, Anaconda, Power Query

Certification(Coursera): Google Data Analytics Professional Certificate
