

SAI MANISH VARMA M

+1 (315) 261-9775 | manishvarma438@gmail.com | USA | LinkedIn

SUMMARY

Data analyst with 3+ years of experience skilled in SQL, Python, R, and BI tools like Power BI and Tableau. Proficient in data extraction, cleaning, transformation, and visualization, with expertise in ETL pipelines, statistical analysis, machine learning techniques, and data validation. Experienced in collaborating across teams using Agile methodologies to deliver actionable insights that enhance business performance through advanced analytics and interactive dashboards

PROFESSIONAL EXPERIENCE

Ameriprise Financial

Data Analyst

United States

October 2024 - October 2025

- Collaborated with cross-functional teams (business, analytics, engineering) in an Agile environment to gather requirements, define KPIs, and translate business needs into scalable analytics solutions.
- Designed and optimized advanced SQL queries using CTEs and window functions on cloud data platforms (AWS Redshift, Athena) to analyze large, multi-source datasets and improve reporting reliability.
- Applied time-series analysis and regression modeling to evaluate performance trends and variability, identifying 30% underperforming segments and enabling data-driven corrective actions.
- Utilized Python (Pandas, NumPy, SciPy) for data cleaning, transformation, correlation analysis, and hypothesis testing, improving analytical accuracy by 15%.
- Automated ETL pipelines using AWS Glue, Lambda, and S3 and delivered interactive Power BI dashboards with DAX-driven KPIs and drill-downs, reducing manual effort by 25% and accelerating insight delivery by 20%.

Zebronics

Data Analyst

India

January 2021 - July 2023

- Partnered with Sales, Marketing, and IT teams in an Agile environment to integrate customer purchase data and define targeting metrics, driving a 25% improvement in campaign effectiveness.
- Built and optimized SQL queries on Azure SQL Database and automated ETL pipelines using Azure Data Factory to process millions of ERP and e-commerce transactions for scalable analytics.
- Conducted exploratory data analysis and K-Means clustering to identify 4 distinct customer segments, improving targeting precision by 18% and revealing seasonal purchasing trends.
- Used Python (Pandas, NumPy) for data cleaning and feature engineering, reducing data processing time by 30%, and validated segments using decision tree models in R, increasing prediction accuracy by 12%.
- Ensured high data quality through automated validation and error handling in ETL workflows and delivered interactive Tableau dashboards with filters and calculated fields for actionable insights.

PROJECTS & OUTSIDE EXPERIENCE

Air Pollution Analysis across NYC Boroughs

Research Analyst

Potsdam, NY, USA

September 2023 - September 2024

- Analyzed PM2.5 air quality and respiratory health trends in Queens, NY (2016–2024) using EPA and surveillance datasets, applying seasonal trend analysis, ANOVA, and lag-correlation to uncover pollution–health relationships and COVID-19 lockdown impacts.
- Built and evaluated predictive models (Random Forest, XGBoost) and visualized insights through rolling averages, boxplots, and annual indices, achieving moderate accuracy ($R^2 = 0.38$) and highlighting the need for expanded multivariate forecasting approaches.

Earthquake Risk Zone Mapping (New York Counties)

- Engineered a spatial analytics model in ArcGIS Pro integrating seismic intensity, soil composition, and infrastructure data to statistically delineate high-risk seismic zones.

SKILLS

Skills: SQL (Spark SQL, BigQuery), R, Power BI, Tableau, Python (NumPy, Pandas, SciPy), Excel (Advanced formulas, Pivot Tables, Power Query), Snowflake, Business Analytics, Statistics, Dashboards, Cross Functional Collaboration, Stakeholder Communication, ETL, Data Pipeline, AWS S3, Azure Data Factory, Glue, DAX, SDLC, Time Series Analysis, Hypothesis Testing, Ad-Hoc, Trend Analysis, Google Analytics, CRM/ERP, KPI Tracking, Data Validation

CERTIFICATIONS

- ESRI-Spatial Data Science: The New Frontier in Analytics
- Cyber Security Virtual Internship
- AWS Academy Graduate - Cloud Foundations

EDUCATION

Clarkson University

Master's, Data Science

August 2023 - May 2025

GPA: 3.69
