Financial Analyst

Shraddhaguhe98@gmail.com | [LinkedIn](#) | (312) 404 5690 | Chicago, IL

Finance professional with over 4 years of experience in analysis, reporting, and budgeting across university, non-profit, and real estate environments. Skilled in managing grant transactions, ensuring regulatory compliance, and resolving financial discrepancies efficiently. Experienced in streamlining invoice processes, implementing forecasting models, and enhancing operational workflows. Proficient in SAP FICO, Oracle Financials, SQL, Python, and Power BI for advanced financial modelling and reporting.

PROFESSIONAL EXPERIENCE

Financial Assistant | Northwestern University

Feb 2025 – Present

- Managed and processed over \$200,000 in monthly grant-related financial transactions. Ensured accuracy, timeliness, and full compliance with federal funding guidelines and institutional policies.
- Investigated and resolved 95% of financial discrepancies within two business days. Maintained clean financial records by identifying errors, coordinating with departments, and implementing corrective actions.
- Reconciled 30+ department-level budget accounts quarterly, verifying entries and correcting variances. Supported accurate forecasting and promoted fiscal accountability across units.
- Compiled and delivered weekly financial performance reports for leadership, including expense trends and variance analysis. Helped improve decision-making efficiency by 25% through timely reporting.
- Maintained audit-ready documentation for all financial activities, including approvals, receipts, and reconciliations. Achieved 100% compliance during internal and external financial audits.

Fundraising Coordinator | A Work of Faith Ministries, Inc.

Nov 2024 – Present

- Managed financial planning and analysis for logistics and supply chain functions, improving budgeting accuracy by 15% through detailed forecasting.
- Implemented a revised pricing model for the top five accounts, leading to a 10% increase in contract revenue and strengthening long-term client engagement in a competitive logistics sector.
- Enhanced invoice review processes and restructured payment cycles, lowering transaction discrepancies by 35% while ensuring consistent on-time payments to suppliers.
- Built and applied KPI tracking systems for supply operations, achieving a 20% improvement in process efficiency and optimizing allocation of personnel and inventory across key regions.
- Streamlined data extraction and reporting workflows, increasing the accuracy of financial statements and reducing reporting time by 30%.
- Developed and monitored grant budgets, aligning funding allocation with organizational goals and ensuring timely submission of financial reports to stakeholders.
- Coordinated cross-functional efforts between finance, outreach, and donor relations teams, contributing to a 25% rise in donor retention and enhanced transparency in fund utilization.

Finance Intern | The Freckled Strawberry

Feb 2024 – Apr 2024

- Designed and applied financial models for real estate and infrastructure investments, strengthening feasibility analysis and supporting informed decisions for capital deployment.
- Rebuilt CAPEX and OPEX budgeting frameworks, improving resource planning efficiency and optimizing expense allocations across multiple high-value development projects.
- Automated cash flow reporting workflows, reducing manual input by 50% and increasing financial accuracy through systematic data integration and real-time tracking tools.
- Evaluated loan documentation and financial covenants to verify adherence to lender terms, ensuring complete alignment with institutional compliance standards and risk controls.

Financial Analyst | Vedant Real Estate Private Limited

Jul 2019 – Aug 2022

- Developed a forecasting model using regression techniques and automation tools, reducing the annual budget cycle by 25% and improving projection accuracy by 15%.
- Evaluated revenue and expenditure patterns across real estate portfolios, enabling senior leadership to identify new profit channels and enhance capital allocation strategies.
- Automated monthly financial reports using Excel and VBA scripting, cutting preparation time by 30% and improving presentation quality through advanced data visualizations.
- Conducted detailed analysis of balance sheets and income statements, uncovering \$75,000 in savings by streamlining invoice workflows and mitigating delayed payment charges.
