Data Analyst with experience leveraging SQL, Python, and BI tools to extract insights from large datasets and drive business performance. Improved campaign outcomes by 30%, automated financial dashboards that reduced manual reporting by 60%

WORK EXPERIENCE

Data Analyst | Storied Data | New Jersey, USA

May 2024 - Aug 2024

- Automated financial and operational dashboards for 3+ clients using Power BI and MySQL, enabling executives to make faster, data-driven decisions, process optimization and improving visibility into KPIs across departments.
- Built scalable financial data sets and implemented robust ETL pipelines to unify data types from disparate sources, increasing accuracy to 95–98% and reducing manual reporting time.
- Delivered insights through interactive Power BI reports using statistical analysis, identifying business growth opportunities and enhancing strategic planning.
- Conducted A/B testing and collaborated cross-functionally to enhance dashboard usability and personalization, leading to a 25% increase in customer retention and engagement.

Business Intelligence Analyst | Biotb

Dec 2023 - Aug 2023

- Analyzed telehealth usage data from Biotb's platforms to track patient engagement trends and treatment adherence, leading to 15% improvement in follow-up appointment scheduling.
- Collaborated with cross-functional teams to develop KPI dashboards in Power BI, enabling real-time monitoring of regional healthcare access and response times across 30+ Lifeline Outlets, reducing bottlenecks in service delivery.
- Supported the integration of AI modules by preparing training datasets and validating model outputs, contributing to the launch of smarter triage tools that improved patient query resolution accuracy by 22%.
- Conducted exploratory data analysis on patient demographics and service utilization across rural vs. urban regions, generating insights that informed the expansion strategy to 10+ underserved areas.

Data Analyst | Federation of Indian Chambers of Commerce & Industry

May 2022 - Sep 2022

- Collaborated with a cross-functional team to analyze datasets from 30+ sources, extracted and transformed data from AWS-based sources, built and optimized SQL queries to identify key patterns and trends that impacted event attendance economics
- Developed 8+ interactive BI reports and dashboards using Power BI and Microsoft Excel, delivering in-depth analysis of attendance patterns and marketing metrics.
- Provided actionable data-driven insights to stakeholders, contributing to targeted marketing strategies, resulted in a 30% increase in event registrations and 25% more efficient Workflows, drove business results with data-based insights

Business Analyst Intern | The Sparks Foundation

May 2021 - Sep 2021

- Optimized marketing and business strategy using Agile SDLC, analyzed customer behavior and segment to achieve a 20% sales uplift across multiple retail segments.
- Developed 5+ interactive MicroStrategy Dashboards to empower stakeholders with actionable insights, resulting in a 30% increase in sales within key retail product categories.
- Collaborated closely with teams to develop adaptable datasets, monitored churn, engagement, and CLV metrics, reducing data processing by 25% and ensuring scalability for future analysis.

ACADEMIC PROJECTS

Data Analytics Challenge | Arizona Accident Analytics: Innovations for Safer Travel

- Cleaned and analyzed 5 years of real-time traffic fatality data from NHTSA using Python and etl tools to identify key risk factors.
- Created compelling Tableau dashboards and statistical summaries to communicate insights and recommendations

Business Intelligence Analyst | Airbnb Market Insights & Optimization

- Analyzed 50K+ Airbnb listings using Power BI and SQL to uncover pricing and engagement patterns across global markets.
- Build and optimize SQL queries, developed interactive dashboards and predictive models, resulting in a 20% increase in conversion

EDUCATION

University of Arizona | Tucson, USA

Master's in Management Information Systems

GPA: 3.74

Aug 2023-Dec 2024

Vellore Institute of Technology | India

Bachelor's in Computer Science and Engineering

GPA: 3.60

July 2019- July 2023

SKILLS

Programming Skills: Python, R, SQL, PL/SQL, Java, C/C++, VBA, DAX

Data Visualization & Reporting: Power BI, Tableau, Google Looker, Microsoft Excel, Matplotlib, Data Studio

Databases & Warehousing: RDBMS, MySQL, PostgreSQL, PL/SQL, Redshift, Snowflake

Cloud Services: AWS S3, Microsoft Azure, Snowflake, Redshift, Databricks

Agile & Project Management: Microsoft Project, Jira, Azure DevOps, Scrum, Alteryx
