EDUCATIONAL QUALIFICATION

Kent State University, Ohio-USA
Master of Science (Business Analytics)

December 2024

Osmania University, India
Bachelors in Electronics and Communication Engineering

June 2023

SKILLS

Languages:	SQL, Python, R Language, C Language, HTML, CSS
Databases:	MySQL, Oracle, PostgreSQL, MongoDB, DynamoDB
Tools:	Microsoft Excel, Microsoft Office, Microsoft Access, Microsoft Word, Microsoft Power Point, Power BI, Tableau, SAP, Alteryx
Cloud Services:	Amazon Web Services (EC2, S3, RDS, DynamoDB, VPC, IAM, Lambda, SNS, CloudWatch), Microsoft Azure (VMs, Blob Storage, SQL Database, Active Directory, Data Factory, Databricks), Firebase
CRM & Analytics tools:	Clay, Telnyx, HubSpot, Salesforce, Google Analytics, Calendly

WORK EXPERIENCE

Data Analyst Gabriel AI	June 2025- Present
- Analyze campaign and customer interaction data to optimize personalized outreach through AI-driven voice and SMS campaigns. - Leverage AWS services (Lambda, S3, DynamoDB) and platforms like Clay, Telnyx, and Firebase to automate and scale marketing workflows. - Develop and maintain dashboards tracking key performance metrics, providing insights to sales and marketing teams. - Collaborate with product and analytics teams to improve data infrastructure and CRM processes, enhancing platform effectiveness.	
Project Manager Front Page Agency Inc.	January 2025- May 2025
- Manage project timelines, coordinate cross-functional teams, and lead execution of marketing campaigns to ensure alignment with client goals and timely delivery. - Utilize CRM tools like Salesforce, Meridian and data visualization platforms such as Tableau and Power BI to monitor campaign performance and generate actionable insights. - Oversee recruitment, onboarding, and training of team members, fostering a collaborative and high-performing environment. - Align project deliverables with business objectives, contributing to revenue growth and improved campaign efficiency.	
Data Analyst Intern, TrueID Pvt Ltd	September 2023- December 2024
- Analyzed biometric authentication data using SQL and Python, improving overall system reliability and reducing false-positive rates. - Built interactive, real-time dashboards in Tableau and Power BI for visual reporting, enabling quick insights for technical and non-technical teams. - Maintained and optimized MySQL and DynamoDB databases to support efficient query processing and structured data storage. - Partnered with engineering teams to enhance ETL pipelines, improving data consistency, transformation logic, and end-to-end reliability.	
AWS Intern, The National Small Industries Corporation (NSIC)	May 2022- April 2023
- Configured and managed core AWS services such as EC2, S3, RDS, IAM, and VPC to build secure and scalable infrastructure for internal projects. - Designed secure VPC architectures including subnetting, route tables, and NAT gateways to improve network isolation and performance. - Assisted in cost-effective infrastructure optimization while following AWS best practices for scalability, monitoring, and automation. - Worked on automating data movement and processing by building lightweight ETL pipelines using AWS Lambda, CloudWatch, and SNS.	

PROJECTS

CAPSTONE PROJECT- Osteoporosis Risk Prediction Using Lifestyle and Medical Factors

- The project was designed to improve early diagnosis and prevention of osteoporosis.
- Analyzed demographics, lifestyle, and medical data to predict osteoporosis risk using machine learning models like Decision Trees, Random Forests, and Gradient Boosting (92% accuracy).

Kent Natural Food Store (KNFS) Dashboard and Analysis

- Developed a Tableau dashboard to optimize sales and inventory management, identifying popular items and improving stock levels.
- Analyzed sales, costs, and inventory turnover, providing insights and predictive models to forecast needs and enhance product placement for better efficiency.

CERTIFICATIONS

- Alteryx Fundamentals, Machine Learning, Auto Insights – **Altreyx**
- Data Analytics, MySQL, Tableau
- SAP SuccessFactors- **SAP**
