## SKILLS

**Web Development:** HTML, CSS, SCSS, JavaScript, TypeScript, React.js, jQuery, Ajax, Next.js, Angular.js, Bootstrap, Tailwind CSS, Material UI

**Back-End Development:** ASP.NET Core, ASP.NET (MVC), ADO.NET, Blazor, C#, Dynamics X++, Express.js, Node.js, Python, Java, VB.NET, Web API, REST API, LINQ, Microservices, Docker

**Database Management:** SQL, NoSQL, PostgreSQL

**Software Development & Engineering:** Azure DevOps, Software Design, Web Services, Middleware, Enterprise Integration Patterns, CRM, CDS, Power BI, Technology Consulting, CI/CD Pipelines, Data Structures, Git, SCRUM, SDLC, OOP, Unit Testing.

## EXPERIENCE

### Software Engineer

Nov '20 — Aug '23

HCL Technologies

Hyderabad, India

- Overhauled five major components of Microsoft's retail solution using **C#, ASP.NET MVC**, and **MVVM**; this effort resulted in a 15% increase in usability ratings from end-users and improved enterprise integration patterns for Web Service middleware.
- Constructed a **Quick View** feature using HTML5 that allowed customers to preview product details within search results, leading to a 10% increase in product page views and a 5% rise in conversion rates for the enterprise CRM system.
- Spearheaded the design and deployment of the **GetSearchSuggestion** API, incorporating load balancing techniques and CDS that enhanced database performance and reduced latency by 50%, directly improving user experience for developers across store commerce and ecommerce platforms.
- Instituted standardized merchandising and payment workflows within the **NETMVC** framework by crafting detailed technical documents on Azure, shortening the average sprint cycle time by two days and smoothing cross-functional software development.
- Established a centralized repository of technical documentation for NETMVC framework, resulting in 8 fewer critical bugs reported per quarter and faster resolution times for existing issues.
- Implemented **Automatic Log-Off** feature in Microsoft Dynamics 365 using **Dynamics X++ and .NET Core** in the Merchandising area.
- Strong understanding of **Supply Chain Management, Merchandising, Payments, Loyalty, and Orders**, with experience working on **B2B catalog features** in an eCommerce website.

## EDUCATION

**Master's in Computer Science**, Northern Arizona University (GPA: 3.85/4.0)

Aug '23 — Present

Flagstaff, United States

- Earned a Master's degree in Computer Science from Northern Arizona University; focused on software development lifecycle and software architecture, completing over 400 hours of coursework, labs and projects.

## CERTIFICATIONS

**AZ-900 Microsoft Azure Fundamentals**, Microsoft

Jan '25

**AZ - 204 Azure Developer Associate**, Microsoft

Jan '25

**MB-920 Microsoft Dynamics 365 Fundamentals ERP**, Microsoft

Feb '25

## MENTORSHIP AND AWARDS

### Knowledge Sessions & Appreciation Award

HCL TECHNOLOGIES

Trained 25 interns on the end-to-end execution and functionalities of Microsoft Dynamics 365. Retail and Commerce F&O. Received **Distinguished Performance Award** twice for excellence in training and contributions.

## PROJECTS

### E-COMMERCE WEBSITE [Next JS, React & .NET Core 8]

Nov '21

Hyderabad, India

- Developed and integrated custom APIs using .NET Core 8 to enhance communication between the e-commerce platform and enterprise systems, achieving a 15% reduction in API response times and improving overall system efficiency.

Jan '20

### BIKE SHARING SYSTEM

Hyderabad, India

- Engineered a user-friendly interface with a robust software architecture using Java and JavaScript, deploying web services to facilitate seamless access for over 1,000 weekly users on the bike-sharing platform, ensuring optimal user engagement and experience.

Jan '25

### RESTURANT WEBSITE

Flagstaff, United States

- Developed an efficient Restaurant Management Website using ASP.NET Core MVC and a Code-First approach, optimizing database interactions via LINQ which led to a 35% reduction in data retrieval times.

## VOLUNTEERING AND INVOLVENT

**Computer Science Club Member**, Northern Arizona University

Flagstaff

Oct '24

Championed Hacktoberfest as a volunteer, leading initiatives that resulted in the creation of 15 new open-source projects and fostering community engagement among over 200 participants throughout the event.

**Teaching Assistant**, Northern Arizona University

Flagstaff, Arizona

Jan '24

Revamped the 'Web Technologies' course by integrating MERN stack and Golang for software systems, aligning curriculum with contemporary industry standards; received commendations from 120 students who reported significant improvement in technical skills.
