

VAISHNAVI YANAMANDRA VENKATA SAI

FL, Open to relocation | 689-219-0927 | vyanamandrav2023@my.fit.edu | [LinkedIn](#)

SUMMARY

Results-driven Data Analyst and Engineer with a Master's in Computer Information Systems and over four years of experience in data analytics, business intelligence, and data engineering. Proficient in SQL, Python, Tableau, and Power BI for data analysis, visualization, and reporting. Experienced in building ETL pipelines, data warehousing, and automation to enhance data integrity and operational efficiency. Adept at transforming raw data into actionable insights to drive business decisions and process improvements.

SKILLS

Programming Languages: Python, SQL, JavaScript, Shell scripting, Java, R.

Frameworks/Libraries: Pandas, NumPy, Seaborn, Matplotlib.

Data Engineering: ETL, MySQL, NoSQL, MongoDB, PostgreSQL, Snowflake, Database design, Data warehousing, DataMart, Datalake, Data Pipeline, Data Modeling, Databricks, SSIS, SSRS, SSMS, S3, Redshift, RDS, SQLite, Firebase, GCP BigQuery

Tools & Platforms: Matlab, Tableau, Microsoft Power BI, Agile/Scrum, RestfulAPI's, Visual Studio, Amazon Web Services, Azure, GitHub, Jira, Snowpark, Glue Studio, Flask, HTML, Streamlit, SuperPutty, Cloud servicing experience, Selenium, Android Studio.

PROFESSIONAL EXPERIENCE

Data Engineer

Hyderabad, India

ADP

Aug 2021 – Jul 2023

- Led the "Payforce to Vantage (P2V) Data Integration" project, enabling **50+ clients** to transition seamlessly with **99.9% data integrity** using **ETL tools** and **Python**.
- Built and automated **data pipelines** for large-scale migration and transformation using **Apache Airflow**, **Selenium**, and **Java**, cutting manual testing by **40%**.
- Developed **SQL queries** and **Python scripts** to validate and clean datasets, improving data quality by **20%** and reducing pipeline errors by **25%**.
- Migrated datasets to **AWS S3** and **Snowflake**, optimizing performance and reducing processing costs by **15%**.
- Monitored and resolved **data pipeline failures** using **logs** and **monitoring dashboards**, achieving **99.5% uptime**.
- Enhanced **data governance** and **security** practices by **20%** through collaboration with data stewards and stakeholders, ensuring compliance and scalability.
- Mentored **junior developers** and collaborated with **cross-functional teams**, delivering **100% on-time execution** and improving **client satisfaction** by **15%**.

INTERNSHIP

Data Intern

Hyderabad, India

Epsilon Pvt Ltd

Sep 2019 – May 2021

- Analyzed monthly sales and inventory data across multiple locations to identify trends and improve efficiency.
- Created interactive dashboards with **Tableau/Power BI** to visualize sales and inventory KPIs.
- Generated automated reports using **Excel** to deliver actionable insights to stakeholders.
- Utilized **SQL** and **Python** for data extraction, cleaning, and visualization to optimize operations.

PROJECTS

Data Analytics and Visualization in Real Estate

Technologies: R, ggplot2, dplyr, tidyverse, forecast, tseries

- Analyzed **20 years (2001–2021)** of real estate sales data, uncovering **market trends** and **seasonal patterns** through dynamic visualizations using **ggplot2** and **dplyr**.
- Automated **data cleaning workflows**, reducing preparation time by **30%** and improving **data reliability** by **20%** through **outlier removal** and missing value handling.
- Built **ARIMA models** for time-series forecasting, achieving **85% accuracy** and enabling **strategic planning** for **market positioning** and **investment decisions**.
- Developed **interactive dashboards**, empowering stakeholders with **real-time insights** to drive **data-backed decisions** and **optimize revenue growth**.

Hemoplus – A Blood Donation App

Technologies: Android Studio, Java, SQL, SQLite, Firebase, RESTful APIs

- Developed a **data-driven mobile application** enabling **blood donation management** and emergency requests, using **SQL** and **SQLite** for **secure data storage** and **retrieval**.
- Integrated **Firestore** Real-time Database for **dynamic data updates** and **real-time synchronization**, improving **response times by 25%** during emergencies.
- **Engineered RESTful APIs** to support **scalable data pipelines**, facilitating **data exchange** between frontend and backend components. Added a **scalable backend architecture** to handle **real-time updates** for an expanding user base.
- Launched MVP within 8 weeks, driving **500+ user registrations** and capturing **10,000+ data points** for **trend analysis** and **future optimizations**.

EDUCATION

Florida Institute of Technology

Melbourne, FL

Master of Science in Computer Information Systems | GPA: 3.9/4.0

Aug 2023 – Dec 2024

ACCOMPLISHMENTS & INTERESTS

- **Relevant Courses:** Data Mining, Data Analysis, Machine Learning, Natural Language Processing, Statistics.
- **Certifications:** Google **Data Analytics Professional** Certificate
- **Leadership Roles:** President of **Lexis Club** and **Treasurer of CSI** at **CMRTC**
- **Hackathons & Competitions:** Participated in **NASA Hackathon**, **Smart India Hackathon**, and **Model UN**, showcasing **problem-solving**, **team collaboration**, and **analytical thinking**.
- **Creative Engagements:** Vocalist at **CMRTC Annual Day** and active participant in **Verba Maximus**, blending **creativity** with **technical expertise**.
