PROFESSIONAL SUMMARY

Results-driven Python Full Stack Developer with expertise in Python, Django, React, and SQL. Skilled in building secure and scalable web applications, leveraging cloud-native architectures (AWS, Google Cloud), and implementing ML/GenAI algorithms. Experienced in RESTful APIs, CI/CD pipelines, microservices, and optimizing database performance. Known for strong problem-solving, cross-functional collaboration, and delivering high-impact technical solutions.

TECHNICAL SKILLS

Languages/Frameworks: Python, JavaScript, C/C++, Django, Flask, React, Ruby on Rails

Databases/Cloud: SQL, PostgreSQL, MySQL, DynamoDB, AWS, Google Cloud, Azure

DevOps/Tools: Git, Docker, Kubernetes, Terraform, Bitbucket, CI/CD

AI/ML: Machine Learning, Generative AI (GenAI), Scikit-learn, Pandas, Jupyter

Testing/Other: PyTest, JUnit, VS Code, PyCharm, Colab

PROFESSIONAL EXPERIENCE

Hexanika, Inc. — *Full Stack Developer* May 2024 – Present

- Designed and implemented secure user authentication and data privacy systems for the TrueX platform, ensuring compliance with modern security standards.
- Developed ML and GenAI-powered scoring algorithms to analyze user activity and enhance predictive risk analysis by 40%.
- Engineered scalable web applications using Python, Django, and React, delivering seamless front-end to back-end integration.
- Deployed applications on AWS and Google Cloud using EKS, maintaining 99.9% uptime under high traffic.
- Optimized SQL and DynamoDB queries, reducing latency by 25%.
- Automated deployments with CI/CD pipelines using Docker and Terraform, shortening release cycles by 30%.
- Architected microservices-based systems for modularity and scalability; ensured code quality with 95%+ test coverage.

Netelity Web Solutions Pvt Ltd — *Software Engineer* Dec 2020 – Jan 2023

- Developed RESTful APIs and proxy web applications in Python and Flask, improving data workflows by 30%.
- Integrated third-party APIs and optimized SQL/PostgreSQL queries, reducing query times by 20%.
- Built OAuth 2.0 authentication, secure session handling, and AES encryption for user data.
- Automated reporting with Power BI, increasing business decision-making speed and boosting sales by 10%.
- Collaborated with UI/UX teams and implemented async request handling for smoother front-end experiences.
- Participated in Agile sprints, mentored junior developers, and upheld CI/CD and DevOps standards.

Grey Campus Edutech Limited — *Technical Trainee (Intern)* Sep 2020 – Dec 2020

- Contributed to scalable educational platforms using Ruby on Rails, optimizing server response times by 15%.
- Assisted in migrating legacy systems to modern frameworks, enhancing performance and maintainability.

ACADEMIC PROJECTS

Child Health Care Management System (Django, Python, SQL)

Developed a cloud-based system with role-based access and AI-powered recommendations, featuring real-time health monitoring dashboards optimized with design patterns.

Enhanced Photo Storage App (Flask, Python, Google Cloud)

Built a scalable app with AI-based image tagging and intuitive UI/UX using React, HTML, and CSS, integrated with Google Cloud for efficient storage.

EDUCATION

M.S. in Computer Science — Florida Atlantic University Aug 2023 – May 2025

B.Tech in Computer Science — B V Raju Institute of Technology Aug 2017 – July 2021
