

PROFESSIONAL SUMMARY

Data Engineer with 1.5+ years of experience in building cloud-native data pipelines and dashboards using **Azure and AWS**. Skilled in **ADF, Power BI, SQL, and ReactJS**, with proven ability to automate workflows, monitor pipelines, and ensure reliable data delivery. Strong team player with Agile experience and hands-on work in **CI/CD, monitoring, and cloud automation**. Experienced in optimizing data workflows to reduce costs and improve performance, while maintaining high data quality standards. Adept at collaborating with cross-functional teams to deliver analytics solutions that drive business insights. Passionate about leveraging cloud, automation, and modern data engineering practices to build scalable, secure, and efficient data solutions.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ReactJS, Node.js basics)

Cloud Platforms: Microsoft Azure (ADF, Blob Storage, SQL DB, Synapse), AWS (EC2, S3, RDS, IAM, Lambda, CloudFront)

Data Engineering & ETL: Azure Data Factory (ADF), ETL Pipelines, REST APIs, JSON, dbt (exposure)

Dashboards & Visualization: Power BI (DirectQuery, DAX), ReactJS, Redux, Tailwind CSS, Bootstrap

DevOps & CI/CD: Git, GitHub, Azure DevOps, Jenkins, Terraform (exposure), Automated Deployment Pipelines

Monitoring & Observability: Azure Monitor, Application Insights, Custom Alerting Systems, Logging & Telemetry

Databases: Azure SQL, PostgreSQL, MySQL

OS & Tools: Linux/Unix, Visual Studio Code, Creatio Low-Code Platform

EXPERIENCE

Cloud IT Tec | TX | Data Engineer

January 2024 – Present

- Architected and deployed an end-to-end **ETL pipeline on Azure Data Factory**, ingesting product and pricing data from 50,000+ Walmart listings daily into Azure SQL Database and Blob Storage.
- Implemented **data transformation workflows in Databricks (PySpark, Delta Lake)**, reducing job runtimes by 40% and improving scalability for semi-structured web-scraped datasets.
- Automated data quality checks with **dbt Core** and integrated **dynamic error-handling logic**, achieving **99.9% SLA** and reducing manual intervention by 70%.
- Designed and published **interactive Power BI dashboards** with drill-throughs, slicers, and KPI cards, enabling business users to analyze price trends, competitor comparisons, and discount impacts in real time.
- Optimized storage and computing with **partitioning and incremental loads**, lowering Azure costs by 25% while ensuring dashboards updated within 5 minutes of ingestion.

PROJECTS

Walmart Workflow Management on Creatio (Apr 2025)

- Authored Business Requirements Document (BRD) to transition from Excel-based processes to the Creatio low-code platform.
- Designed end-to-end workflow: data ingestion, automated work allocation, QC & re-audit processes, and output reporting.
- Defined role-based access (Manager, Team Lead, QC Auditor) and configurable allocation rules (targets, PTG, PT).

Web Application Hosting on AWS (2024)

- Designed and deployed a **Django-based chatbot application** on AWS using **EC2, S3, RDS, and CloudFront** for high availability and scalability.
- Implemented a **CI/CD pipeline with CodePipeline & CodeDeploy**, reducing deployment time by **40%** and minimizing downtime during updates.

Automated Continuous Deployment Pipeline on AWS (2022)

- Built an **end-to-end deployment pipeline** using **AWS CodePipeline & CodeBuild** to automate software release cycles.
- Optimized build processes with **parallel execution**, reducing build times by **30%** and improving release efficiency.
- Integrated pipeline with **GitHub** for seamless version control and automatic live application updates.

CERTIFICATION

Oracle Cloud Infrastructure (OCI) Data Science Professional Certification – 2025

Oracle Cloud Infrastructure Generative AI Professional-2025

Creatio Low-Code Certification – Setup Wizard Module Completed-2025

AWS APAC Solutions Architecture Simulation – Forage-2024

EDUCATION

Master's in computer science | University of Bridgeport, Bridgeport, CT, USA.

Bachelor's Computer Engineering | R.M.D Engineering College, Chennai, India.
