SUMMARY

Data Science student with hands-on experience in Python, Java, and SQL. Comfortable working across both technical and support roles, with a strong interest in problem-solving, building useful tools, and understanding how systems work. Background includes team leadership and customer-facing experience.

WORK EXPERIENCE

AcademixAlert Reminder App Sept 2023 - Dec 2023

- Built a desktop app to help students manage assignments and deadlines
- Used JavaFX for the interface and MySQL for storing reminders
- Included a feature to link reminders to specific locations for better planning
- Created as part of a college course in object-oriented programming

Experimental Tutoring Platform Feb 2024 - May 2024

Python, Streamlit, OCR, Zoom API

- Built a tutoring tool with real-time screen reading, voice interaction, and live feedback features
- Integrated OCR for text capture, voice input/output, and Zoom for live sessions
- Supported document uploads and subject-based learning modules
- Learned system design, API integration, and writing modular, testable code

Team Lead – Panera Bread, IL Jan 2023 – Present

- Managed a team of 4 to keep operations running smoothly and customers satisfied
- Encouraged teamwork and clear communication to maintain a positive work environment
- Helped improve service flow and resolve customer issues quickly

EDUCATION

Bachelor of Science – Data Science (In Progress) Expected: May 2025 – 2027

University of Illinois Chicago (UIC)

Associate of Science – Data Science Sept 2022 – Dec 2024

Harry S Truman College, Chicago, IL

SKILLS

- **Programming Languages:** Python, Java, C++, Basic SQL
- **Web & Dev Tools:** HTML/CSS (basic), Git, VS Code, JavaFX
- **Database & Data Analysis:** MySQL, basic SQL querying, spreadsheet tools (Excel/Sheets)
- **IT & Support:**
 - Troubleshooting software/hardware issues
 - Operating systems: Windows, macOS
 - Basic networking (IP, routers, setup)
- **QA & Testing:**
 - Manual testing, identifying bugs, writing test cases
 - Understanding of software development lifecycle
- **Soft Skills:**
 - Team collaboration, clear communication, customer service
 - Time management, problem-solving, adaptability
