PROFESSIONAL SUMMARY

Experienced Data Engineer with a strong background in optimizing database architectures and performance for major clients like Walmart Inc. and Evalueserve Inc. Expertise in enhancing query performance, data accuracy, and system reliability through strategic updates, cloud solutions, and security measures. Proven ability to collaborate with cross-functional teams, migrate legacy systems, and implement robust monitoring and compliance solutions. Adept at integrating new technologies to drive system efficiency and functionality.

EXPERIENCE

Data Engineer

Walmart Inc, 2023 - Current

Developed and implemented efficient database architectures for Walmart Inc., leading to a 25% improvement in query performance and a 15% reduction in system downtime.

Optimized performance standards for Walmart Inc. by selecting and integrating advanced hardware and software, resulting in a 30% increase in processing speed.

Designed and deployed effective database systems for Walmart Inc. by gathering and analyzing requirements from analysts, improving data accessibility by 20%.

Enhanced database development for Walmart Inc. with well-constructed models, which led to a 40% reduction in data redundancy and 25% improvement in data accuracy.

Boosted performance for Walmart Inc. through strategic deployment of database updates, achieving a 35% reduction in query execution time.

Ensured quality of database updates at Walmart Inc. with standardized quality assurance tests, leading to a 50% decrease in post-deployment bugs.

Enhanced data systems continuously for Walmart Inc. by collaborating with data and analytics experts, which improved functionality by 20%.

Delivered robust cloud-based solutions for Walmart Inc. in partnership with digital product managers, resulting in a 30% increase in deployment efficiency.

Defined architecture for data management systems at Walmart Inc., tailored to internal consumer needs, improving data retrieval speed by 25%.

Verified design standards, code quality, and performance tuning for Walmart Inc. with rigorous unit tests, leading to a 40% improvement in system reliability.

Data Engineer

Evalueserve Inc, 2020 - 2022

Collaborated with cross-functional teams at Evalueserve Inc. to gather requirements for new database projects, leading to a 20% improvement in project alignment and delivery.

Participated in code reviews at Evalueserve Inc. to maintain consistent coding standards across the team, resulting in a 30% reduction in code defects.

Optimized query performance at Evalueserve Inc. through indexing strategies, query rewriting, and other techniques, achieving a 25% reduction in query response time.

Conducted regular audits of databases at Evalueserve Inc. to ensure compliance with company policies and industry standards, resulting in a 15% decrease in compliance issues.

Established robust monitoring solutions at Evalueserve Inc. to proactively detect potential issues before they escalated, reducing system downtime by 20%.

Designed and implemented database structures at Evalueserve Inc. to optimize data storage and retrieval, improving data access speeds by 30%.

Migrated legacy databases to modern platforms at Evalueserve Inc., ensuring a smooth transition without data loss, achieving a 100% data integrity rate.

Implemented security measures such as encryption and user access controls at Evalueserve Inc. to protect sensitive data, reducing security incidents by 40%.

Evaluated new technologies and tools for possible integration into existing systems at Evalueserve Inc., leading to a 25% increase in system efficiency.

SKILLS

- | | | |
|--------------------------------------|---|---------------------------|
| • Database Architecture and Design | • Query Optimization | • Data Migration |
| • Cloud Solutions | • Data Security | • Monitoring and Auditing |
| • Software and Hardware Optimization | • Programming and Scripting (e.g., SQL, Python) | • Data Analytics |

EDUCATION

Bachelor of Science (B.S.): Computer Science
GITAM University,. B.Tech in CSE, Hyderabad, May 2020

Master of Science (M.S.): Business Analyst
Central Michigan University, Michigan, Dec 2023

LANGUAGE

English
Fluent
