

Aakanksha Yedavelly

Clinical Data Analyst

ayedavelly@gmail.com | [LinkedIn](#) | (567) 294 3486 | Findlay, OH

Clinical Data Analyst with over two years of experience in healthcare analytics specializing in EHR management, predictive analytics, and regulatory compliance. Achievements include reducing administrative inefficiencies by 25% through automation of data workflows using SQL and Python, while improving treatment adherence rates by 15% via statistical modelling on treatment protocols. Recognized for efforts in bridging clinical expertise with data driven decision-making to enhance healthcare delivery.

PROFESSIONAL EXPERIENCE

Clinical Data Analyst | North American Dental Group

Jul 2024 – Present

- Designed and optimized data pipelines to integrate EHR, patient management, and billing systems, reducing data entry errors by 20% and enhancing data accuracy.
- Developed automated dashboards using Tableau and SQL, reducing manual reporting time by 30% and improving decision-making efficiency.
- Performed advanced statistical analysis on treatment outcomes, insurance claim trends, and operational efficiency, optimizing resource allocation by 15%.
- Pioneered machine learning models using Python to predict patient no-show appointments, reducing no-show rates by 15% and freeing up an average of two appointment slots per day.
- Extracted, cleaned, and validated clinical data for research studies and clinical trials, enhancing data integrity by 25% and supporting evidence-based research.
- Transformed SQL queries and ETL pipelines to streamline data extraction, transformation, and loading, improving data processing efficiency by 40%.
- Ensured compliance with HIPAA, FDA, and cGMP regulations by conducting regular data audits, security assessments, and software validation for regulatory adherence.

Dentist | Sri Balaji Dental College

Jan 2021 – Jan 2022

- Delivered comprehensive dental care through diagnostic evaluations, preventive treatments, and restorative procedures, achieving a 90% patient satisfaction rate.
- Launched digital dental solutions for patient scheduling, treatment tracking, and billing, increasing operational efficiency by 30%.
- Conducted clinical research on new dental materials and treatment methodologies, presenting findings to enhance evidence-based practices.
- Managed and maintained electronic health records (EHR) in compliance with HIPAA and healthcare regulations, improving patient data accuracy and clinical workflows.
- Spearheaded comprehensive dental treatments for 1K+ patients, encompassing evaluations, preventative care, and restorative work while prioritizing patient comfort.

EDUCATION

- MS in Health Informatics, The University of Findlay, USA
- BDS in Sri Balaji Dental College, India

Aug 2022 – May 2024

Jul 2016 – Jan 2022

PROJECTS

Predictive Analytics Model for Hospital Readmission

Jan 2022 – Mar 2022

- Developed a predictive analytics model using Python, SQL, and R to assess hospital readmission risks, leading to a 15% reduction in readmission rates and optimized resource allocation.
- Standardized EHR data using SQL queries and ETL pipelines, implemented machine learning algorithms, and designed interactive Tableau dashboards to improve decision-making and early intervention strategies.

Optimization of Healthcare ERP and Billing Systems

Apr 2022 – Jul 2022

- Led data migration from legacy to modern healthcare ERP and billing systems, ensuring compliance with HIPAA and improving financial accuracy by reducing billing errors by 20%.
- Optimized SQL queries and indexing to enhance claims processing speed, reducing system latency and improving processing efficiency by 40%.
- Automated reconciliation workflows for patient billing and insurance claims, minimizing manual intervention and accelerating revenue cycle management.

CERTIFICATE

- CITI Training Certificate for Social and Behavioural Research
- CITI Training Certificate for Social & Behavioural Responsible Conduct of Research
- CITI Training Certificate for Public Health Research
- CITI Training Certificate for Conflicts of Interest

TECHNICAL SKILLS

- Core Competencies:** Statistical Modeling, Predictive Analytics, A/B Testing, Hypothesis Testing, Treatment Effectiveness Analysis, Operational Efficiency Analysis, Cost Optimization, Clinical Data Auditing
- Technical Skills:** SQL (Advanced), Python, R, SAS, Database Design, Data Warehousing, Query Optimization, API Integration, Tableau
- Healthcare Systems & Standards:** Epic, Dentrix, Cerner, Electronic Health Records (EHR), Patient Management Systems, HL7 & FHIR Standards, Digital Imaging Systems, Clinical Trials Data Management
- Data Visualization & Reporting:** Tableau, Microsoft Excel (PivotTables, VLOOKUPS, Macros), Dashboard Development, Interactive Reporting, Report Generation, Data Storytelling
- Compliance & Regulatory:** HIPAA, FDA, cGMP, GCP, SOP Documentation, Regulatory Reporting, Data Quality Management, Metadata Management
- Project Management & Methodologies:** Agile Methodologies, Jira, Gantt Charts, Process Automation, Cross-Functional Team Collaboration
