**(Open to Relocate)**

## SUMMARY

---

**Business Analyst** with 2+ years of experience designing and developing **interactive Power BI dashboards** that **transform complex datasets** into clear, actionable insights for sales, revenue, and operations teams. Skilled in creating **advanced DAX measures**, building efficient data models, and optimizing performance for large-scale analytics solutions. Proficient in **SQL, Python, and modern BI methodologies**, with hands-on experience in **ETL workflows**, data validation, and ad-hoc reporting. Adept at collaborating with cross-functional teams to translate business requirements into **data-driven strategies**, streamline reporting processes, and support informed decision-making.

## AWARDS, RECOGNITION, CERTIFICATIONS

---

- [Microsoft Certified: Power BI Data Analyst Associate](#)
- First place, event "ROBOTIC PRESENTATION" in 3rd state-level technical fest "TECHNOTHSAV 2K19" 12/01/2018
- Appreciation certificate, ALIENS FEST 3.0 for participating in the "Mobile App Development" workshop.
- Certificate, Rinux Infinity Team Cell, IIT Kharagpur and MTA (Microsoft Technology Associate) for successfully completing the course "Web Development".

## PROFESSIONAL EXPERIENCE

---

### COMMSCOPE Business Analyst

**Charlotte NC(Remote)**  
**May 2024 - Present**

*The business team struggled to get a clear and timely view of sales, revenue, and operational performance. Data was scattered across multiple sources, and most reports were created manually, causing delays in decision-making. This made it difficult to identify key trends and track business growth efficiently across different regions and time periods.*

- Partnered with business stakeholders to understand reporting challenges and define key KPIs for tracking sales, revenue, and operations.
- Collaborated within an **Agile environment**, participating in sprint planning, daily stand-ups, and review meetings to align dashboard development with business priorities.
- Gathered and refined data requirements through **user stories and backlog grooming sessions**, ensuring clarity and feasibility before development.
- Brought data together from multiple sources to create a unified and trustworthy dataset for analytics and reporting.
- Designed and developed **interactive Power BI dashboards** that provided real-time visibility into performance, helping stakeholders make faster, data-driven decisions.
- Applied **advanced DAX calculations** to measure growth, regional performance, and key operational metrics.

- Performed **data validation and quality checks** to ensure data consistency and reliability across all reports.
- Improved **data models and ETL workflows** to enhance dashboard performance and reduce manual reporting effort.
- Worked closely with cross-functional teams—including IT, operations, and finance—to align analytical solutions with business goals.
- Conducted **user training sessions** and created documentation to support user adoption and promote self-service analytics across the organization.

## COGNIZANT

*Software Engineering Intern*

**2022 - Jul 2022**

**Hyderabad, India**

**FEB**

- Developed full-stack applications including an E-commerce platform and Social Media Dashboard using React.js and Spring Boot.
- Implemented REST API integrations and participated in UI/UX improvements.
- Collaborated on database integration and application testing to enhance performance and functionality.

## SKILLS

- **Programming Languages:** SQL, Python, R (basic), Advanced DAX, Data Visualization, Data Mining, ETL Development
- **Data Warehousing:** MySQL, familiarity with Snowflake & Redshift concepts
- **Web Development:** React.js, Spring Boot, HTML, CSS, JavaScript, Bootstrap, REST API Integration
- **BI Tools:** Power BI, Tableau, Ms Excel, PowerPoint
- **ETL Tools:** Familiar with workflows and tools such as Stitch, Fivetran concepts, Agile Methodologies.
- **Operating Systems:** Windows, Linux, Unix
- **Core Competencies:** SAP, Analytical Skills, Business Administration.

## EDUCATION

**Pittsburg State University**

*Master of Science (MS), Information Technology*

**2023 - 2024**

**Jawaharlal Nehru Technological University**

*Bachelor of Technology (BTech), Information Technology*

**2018 - 2022**
