402-915-0669 | abdulhameedansarimohammed@gmail.com | [linkedin.com/in/abdulhameedm](https://www.linkedin.com/in/abdulhameedm) | Atlanta, GA

PROFESSIONAL SUMMARY

DevOps Engineer with 5+ years of experience designing, deploying, and managing secure, scalable, and highly available multi-cloud infrastructure across AWS and Azure. Proven expertise in cloud automation, CI/CD pipeline development, Kubernetes orchestration, and infrastructure-as-code using Terraform. Skilled in middleware integration and cross-functional collaboration to drive platform modernization and operational excellence in mission-critical environments.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, IAM, VPC, CloudFormation, EKS), Azure (VMs, AKS, Azure AD, Resource Manager), Google Cloud Platform
Containerization & Orchestration: Kubernetes (EKS, AKS), Docker, Helm, ArgoCD
Infrastructure-as-Code: Terraform, ARM Templates, CloudFormation
CI/CD Tools: GitHub Actions, Jenkins, Azure DevOps Pipelines, TravisCI
Scripting Languages: Python, Bash, PowerShell, Java, JavaScript
Middleware Technologies: Apache Kafka, WebLogic, IBM MQ, Tomcat, Node.js, Flask
Observability & Monitoring: Datadog, Prometheus, Grafana, ELK Stack
Security & Compliance: Cloud IAM, Secrets Management, SOC2, HIPAA
Databases: PostgreSQL, SQL
Version Control: Git

PROFESSIONAL EXPERIENCE

Sr. DevOps Engineer

Aug 2024 - Present

Navitus Health Solutions

Atlanta, Georgia

- Designed and deployed secure, scalable infrastructure across multi-cloud environments (Azure & AWS) for mission-critical healthcare applications
- Built and maintained CI/CD pipelines using GitHub Actions and Azure DevOps for distributed SaaS applications, reducing deployment time by 40%
- Managed and optimized Kubernetes clusters (AKS/EKS) for containerized workloads, improving resource utilization by 30%
- Implemented infrastructure-as-code using Terraform to automate provisioning of cloud resources across multi-cloud platforms
- Automated operational workflows using Python and PowerShell, enhancing deployment efficiency and reducing manual errors
- Collaborated with security teams to enforce cloud security policies and ensure HIPAA compliance standards
- Monitored infrastructure performance and uptime using Datadog and Prometheus, achieving 99.9% availability

DevOps Engineer

May 2021 - Dec 2022

HSBC

Hyderabad, Telangana, India

- Managed hybrid cloud environments and supported migration projects from on-premises to AWS and Azure
- Developed and maintained CI/CD pipelines for enterprise applications using Jenkins and Azure DevOps
- Implemented cloud security policies and secrets management using AWS IAM and Azure Key Vault
- Utilized Terraform and ARM templates to automate infrastructure deployment across multi-cloud platforms
- Supported middleware integrations including Apache Kafka and WebLogic for critical application layers
- Enhanced observability using Grafana and ELK Stack, reducing incident response time by 25%
- Managed Docker containers and orchestrated deployments using Kubernetes in production environments

Software Developer

Jun 2019 - May 2021

Citi Bank

Hyderabad, Telangana, India

- Developed and maintained microservices using Java and Python for financial applications
- Containerized applications using Docker and managed deployments in Kubernetes clusters
- Built automated deployment pipelines using Jenkins, reducing manual intervention by 60%
- Implemented infrastructure monitoring and alerting using Prometheus and Grafana
- Collaborated with DevOps teams to implement cloud-native solutions on Azure platform
- Developed scripts in Python and Bash for automation of operational tasks

EDUCATION

Trine University
Masters of Science in Engineering Management

Detroit, MI
Jan 2023 – May 2024

Osmania University
Bachelor of Engineering in Electrical and Electronics Engineering

Hyderabad, Telangana, India
Aug 2015 – May 2019
