

PROFESSIONAL SUMMARY

Detail-oriented and results-driven **Data Engineer** with extensive experience in building scalable data pipelines and implementing cloud-based data solutions on **AWS**. Expertise in optimizing data storage, processing, and retrieval systems with **AWS services** including **Lambda**, **Redshift**, **Glue**, and **S3**. Adept at developing **ETL processes**, automating workflows, and implementing data lakes to support data-driven decision-making. Proven track record of enhancing data efficiency by optimizing data architecture, resulting in measurable performance improvements. Passionate about leveraging cloud technologies and data engineering practices to drive business success.

SKILLS

- **Cloud Technologies:** AWS (EC2, S3, Lambda, Glue, Redshift, Kinesis, CloudFormation)
- **Programming Languages:** Python, Java, SQL, C++, JavaScript, React
- **Big Data Technologies:** Apache Kafka, Hadoop, Spark
- **Data Engineering:** Data Pipelines, ETL, Data Warehousing
- **Databases:** MySQL, PostgreSQL, NoSQL
- **Tools & Technologies:** Git, Docker, Jenkins, Terraform
- **Data Analytics:** Python (Pandas, NumPy, Matplotlib), SQL
- **Operating Systems:** Windows, Linux

PROFESSIONAL EXPERIENCE

Data Engineer – AWS

NYU-Health | Sep 2024 – Present

- Designed and optimized **AWS data pipelines** to process, store, and retrieve **healthcare data** using **S3**, **Redshift**, and **RDS**.
- Automated **ETL processes** with **AWS Glue** and **Lambda**, reducing manual data processing time by **40%**.
- Developed and maintained **AWS data lakes**, enabling seamless access to large datasets and improving analytics and machine learning capabilities.
- Collaborated with **data scientists** and **analysts** to ensure clean, accurate datasets for healthcare analytics.
- Automated infrastructure provisioning using **AWS CloudFormation**, reducing deployment time by **50%** and enhancing scalability.

Data Engineer – AWS

Dentsu | Jan 2021 – Dec 2022

- Designed and implemented **scalable data pipelines** using **AWS Lambda**, **S3**, **Redshift**, and **Glue**, improving data processing efficiency by **30%**.
- Optimized **AWS Redshift** queries and **data storage strategies**, improving data retrieval times and reducing costs.
- Developed **real-time data processing** solutions using **AWS Kinesis**, enhancing the accuracy of live event tracking and campaign analytics.
- Worked cross-functionally to integrate **marketing data** from multiple sources and provide accessible datasets for analytics.
- Automated **Terraform** deployment processes, reducing infrastructure management time by **40%** and improving operational efficiency.

ACADEMIC PROJECTS

Real-Time Social Media Analytics Pipeline

Technologies: Python, AWS (Lambda, Kinesis, S3, Redshift), SQL, Docker

- Developed a real-time data pipeline to track social media interactions for brand sentiment analysis.
- Integrated AWS Kinesis for stream processing and Lambda for automated ETL workflows.
- Implemented Redshift for fast analytics and Docker for environment consistency.

Age and Gender Prediction Using CNN

Technologies: Python, CNN

- Built a **Convolutional Neural Network (CNN)** to predict **age** and **gender** from facial images, optimizing the model for improved accuracy.
- Overcame intra-class variance challenges to deploy the model in real-world applications.

Vehicle Autonomy Using Machine Learning

Technologies: Machine Learning, Genetic Algorithms, Cloud Computing

- Developed an **automatic vehicle alarm system** using cloud-based sensor data, enhancing **autonomous vehicle functionality**.
- Applied **genetic algorithms** to optimize accident prediction, improving vehicle safety response times.

EDUCATION

Master of Science in Computer and Information Sciences

Southern Arkansas University, Magnolia, AR | Jan 2023 – Dec 2024

Grade: 4.0/4.0

Relevant Coursework: Data Mining, Cloud Computing, Python, Advanced Programming, Computer Networks, DBMS, Info & Network Security

Bachelor of Technology in Computer Science & Engineering

Siddhartha Institute of Technology & Sciences, Hyderabad, Telangana, India (JNTUH) | Jul 2018 – Aug 2022

CGPA: 6.60/10
