Summary

I am a highly dedicated and enthusiastic engineer trying to upgrade my knowledge to be a par with the latest technology. I always strive harder to be better version of myself.

Skills

- **Programming Languages:** C, C++, Java, HTML, CSS, PHP, JavaScript, Python, Arduino programming.
- **Databases:** MYSQL, SQL Server, Oracle.
- **Testing performance:** Jest, JUnit. Load runner.
- **Others:** Tableau, Hadoop, PyCharm, Eclipse, Anaconda, Git.

Experience

NTT DATA Services | Hyderabad, Telangana
Associate Software Engineer
05/2021 - 06/2022

- Programmed applications and tools using object-oriented languages with goals of code abstraction, stability and reuse.
- Developed automated tests for software applications.
- Coordinated system installations, testing and code corrections.
- Managed source code version control systems like Git, SVN or CVS for team collaboration.
- Developed and implemented Java applications using Spring, Hibernate and Struts frameworks.
- Optimized database queries by tuning SQL statements for better performance of the system.

NTT Data | Hyderabad, Telangana
Software Intern
05/2021 - 12/2021

- Developed, tested, and maintained software applications in accordance with specified requirements.
- Worked closely with systems analysts, engineers and programmers to understand limitations, develop capabilities and resolve software problems.
- Optimized performance of legacy code by refactoring codebase.
- Developed Pharmacy store application using Java as a case study.
- Skilled in Java, MySql, Hibernate and spring hibernate, worked on many testing models and test cases.

Education and Training

Western Michigan University | Kalamazoo, MI
Master of Science in Data Science
Expected in 04/2024

BVRIT College of Engineering | Hyderabad, India.
Bachelor of Science in Electronics And Communication Engineering
05/2021

Activities and Honors

- Awarded as a student president of IEEE at BVRIT College of Engineering.
- Awarded as a state-level classical dancer in the year 2007.

Academic projects

- Worked on the project web application to classify emails as spam or non-spam using machine learning.
- ML projects using the main "flask_app.py" file that handles the web application routes and requests, and the "spamClassifier.py" file that contains the classification logic using the Naive algorithm.

Certifications

- **Coursera certifications:**
- Introduction to Artificial Intelligence from Coursera From IBM University.
- Python for everybody from the University of Michigan.
