
Education:**University of Massachusetts, Boston, MA | Master of Science in Business Analytics | September'22 – May'24 |****B V R I T, Narsapur, India | Bachelor of Engineering in Electronics and Communication | August'17 – June'21 |**

Skills:**Programming:** Python (Pandas, NumPy, Scikit-learn, Pyspark, SQL Alchemy), R(dplyr, ggplot2), VBA & Excel Macros**Data Analysis:** A/B testing, EDA, Data profiling & validation, Data cleaning, processing & wrangling, Statistical analysis**Data Visualization:** Power BI, Tableau, Excel, Google data studio, Matplotlib & seaborn**Databases & SQL:** SQL, ETL, NoSQL, MongoDB, Data normalizing & indexing**Project Management Frameworks:** JIRA, Agile, Scrum, Kanban for tracking**Cloud Technologies & Infrastructure:** AWS, GCP, Databricks & Apache spark, Hadoop Ecosystem.

Experience:**Business Analyst Volunteer, Crowd Doing – Remote****Nov'24 – Present**

- Developed interactive dashboards in Tableau to track volunteer well-being, reducing manual reporting time by 30% and improving real-time decision-making.
- Conducted sentiment analysis using Python to identify key volunteer concerns, leading to targeted wellness initiatives that improved retention rates.
- Optimized onboarding processes by analysing engagement metrics, cutting new volunteer orientation time by 40% through data-driven improvements.

Environments: SQL, Python, Tableau, JIRA, Agile Wellness & Mental Health Platforms.**Business Data Analyst – Workday& Reporting, Accenture – Bangalore, INDIA****June'21 – July'22**

- Developed and automated HR reports in Workday and Excel VBA, reducing manual reporting time by **40%** and improving data accuracy.
- Analyzed workforce data trends to optimize payroll and attendance tracking, enhancing operational efficiency for 10+ client projects.
- Collaborated with HR and IT teams to configure Workday modules, leading to the successful deployment of 8+ major HR features without delays.

Environment: Workday, Workday Studio, Workday Report Writer, SQL, Excel VBA, Agile, JIRA**Data Analyst, Urjanet - Chennai, INDIA****October'20 – May'21**

- Designed and automated ETL validation frameworks using MS Access and SQL, improving data integrity across 10+ data pipelines.
- Developed dynamic dashboards leveraging SQL and Tableau, delivering actionable insights that optimized three major business operations.
- Conducted in-depth statistical analysis on high-volume datasets, identifying and mitigating key data inconsistencies, raising accuracy from 85% to 98%.

Environment: SQL, Python, Tableau, Power BI, MS Access, ETL Pipelines, Agile**Data Analyst Intern, Verzeo – Karnataka, INDIA****March'20 - September'20**

- Applied machine learning techniques, enhancing COVID-19 case prediction accuracy by 15% through optimized KNN models.
- Executed advanced feature engineering and data preprocessing strategies, refining model performance for high-dimensional datasets.
- Developed interactive, real-time analytics dashboards in Python, streamlining KPI reporting and reducing manual data compilation by four hours per week.

Environment: Python, Pandas, NumPy, Scikit-learn, Jupyter Notebook, KNN, Data Visualization, Machine Learning

Projects:**PySpark-Driven E-commerce Demand Forecasting and Inventory Optimization**

- Optimized demand forecasting models, reducing order lead time by 7 days through predictive analytics on consumer buying trends.
- Implemented inventory optimization strategies, decreasing surplus levels by 20%, improving cost efficiency.
- Led Agile sprints, enhancing workflow efficiency and boosting analysts' productivity over six weeks.

Business Insights from Sales and Returns Data – University of Massachusetts - Boston

- Extracted key business intelligence, identifying five new product optimization opportunities from consumer behavior metrics.
- Improved **data accuracy by 10%**, enhancing reporting efficiency and decision-making through Agile-driven data analysis.

AWS Cloud Infrastructure Implementation and Security Management

- Designed secure AWS cloud infrastructure, accelerating feature deployment by 10+ business days ahead of schedule.
- Enforced cloud security best practices, reducing miscommunication-related inefficiencies by two hours per week.

Drug Management and Distribution Database

- Developed a compliance-ready digital repository for medication history, ensuring 2+ years of audit readiness.
- Optimized drug procurement forecasting, cutting excess inventory by 10% annually through predictive analytics.

Online Sales Website Development for A&D High Tech Company

- Launched an e-commerce platform ahead of schedule, achieving key performance targets 3 weeks before major promotions.
 - Minimized downtime by 20+ hours per week during final testing, streamlining development cycles
-
