

Revanth Theppala

Data Analyst

Newark, DE | +1 (302) 455 7628 | theppalarevanth@gmail.com

SUMMARY

- Data Analyst with over 4 years of experience delivering data-driven solutions by leveraging advanced analytics to optimize business operations and drive strategic growth.
- Proficient in data wrangling, preprocessing, and statistical analysis using Python with libraries such as Pandas, NumPy, Matplotlib, and Seaborn, ensuring accuracy and reliability in analytical outcomes.
- Experienced in designing and deploying interactive dashboards and KPIs using Tableau and Power BI to deliver actionable insights, streamline reporting, and enhance data-driven decision-making for leadership teams.
- Well-versed in SQL development, writing complex queries, stored procedures, and performance-tuned scripts across PostgreSQL, SQL Server, MySQL, and Oracle to enable faster data retrieval and analysis.
- Skilled in cloud-based data ecosystems including AWS, Azure, and Databricks, with a focus on building ETL workflows, big data solutions, and scalable data pipelines to support enterprise analytics.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Programming Languages: Python, R, SAS, SQL, PL/SQL

IDEs: Visual Studio Code, PyCharm, Jupyter Notebook

Packages: NumPy, Pandas, SciPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, ggplot2

ETL Tools: SSIS, SSRS, SSAS, Informatica

Visualization Tools: Tableau, Power BI, Advance Excel

Cloud Technologies: AWS, GCP, Azure

Databases: MySQL, PostgreSQL, SQL Server, Oracle

Version Control Tools: Git, GitHub, GitLab

Other Skills: Data Cleaning, Data Wrangling, Critical Thinking, Communication, Presentation Skills, Problem-Solving, Data Analytics, Decision-making, Data Mining, Data Architecture, Data Management, Data Manipulation, Data Warehousing

Operating Systems: Windows, Linux, Mac

EXPERIENCE

MetLife

Jan 2025 - Present

Data Analyst

USA

- Wrote and optimized SQL queries and Python scripts for large-scale data profiling and trend analysis, uncovering process inefficiencies that increased operational productivity by 18%.
- Delivered Tableau dashboards tracking KPIs across sales and operations, reducing manual reporting time by 40 hours per month and accelerating leadership decision-making.
- Built and automated ETL pipelines with AWS Lambda, S3, and Redshift, cutting data ingestion time by 30% and supporting near real-time analytics.
- Applied predictive modeling techniques (logistic regression, clustering) that improved customer churn prediction accuracy by 22%, driving retention strategy improvements.
- Automated recurring reporting tasks with Python validation scripts, reducing human error by 35% and saving analysts 15 hours weekly.
- Standardized code management using GitHub, improving cross-team collaboration and reducing deployment issues.

Mindtree

Jan 2020 - Jul 2023

Data Analyst

India

- Led analytics projects within Agile teams, shortening project delivery timelines by 20% through continuous collaboration and iterative improvements.
- Operated Python (NumPy, Pandas, Matplotlib) and SQL for deep-dive analysis of operational data, identifying bottlenecks that increased process efficiency by 15%.
- Designed and launched Tableau dashboards that delivered real-time KPIs, improving stakeholder visibility and boosting cross-departmental reporting accuracy by 35%.
- Deployed Google Cloud Platform (BigQuery, Dataflow) to process millions of records, reducing data processing latency by 40% and enabling faster business insights.
- Re-engineered PostgreSQL schemas and queries, enhancing query execution speed by 25% and ensuring reliable high-volume data access.
- Implemented data transformation and quality frameworks, decreasing data inconsistencies by 30% and strengthening trust in enterprise reporting.
- Built interactive visualizations to monitor key metrics, allowing leadership to respond to anomalies 2x faster and improving operational oversight.
- Automated repetitive reporting tasks with Python scripts, cutting manual workload by 30% and reallocating analyst time to strategic analysis.

EDUCATION

Master of Science in Information Assurance

Wilmington University

May 2025

Bachelor of Technology in Information Technology

B V RAJU Institute of Technology

New Castle, Delaware

Jun 2022

Hyderabad, India
