Objective: Passionate graduated Pharmaceutical Science student seeking to leverage strong technical skills, adherence to GLP/GMP standards, and a commitment to quality and compliance to contribute to innovative analytical solutions in a dynamic pharmaceutical or research environment.

EDUCATION

Harrisburg university of science and technology , Harrisburg, PA Masters in Pharmaceutical Sciences	08/2023 – 04/2025
Jawaharlal Nehru technological university , Hyderabad, India Bachelor of Pharmacy	08/2018 - 08/2022

WORK EXPERIENCE

Aurobindo Pharma, Hyderabad, India Chemist	01/ 2023 – 06/2023
---	--------------------

- Performed method development, validation, and sample analysis using Waters HPLC system with Empower software, ensuring compliance with regulatory standards.
- Utilized Electrolab dissolution apparatus to conduct dissolution studies on sustained-release solid dosage forms.
- Operated UV-Visible spectroscopy equipment to analyze samples and quantify analytes based on their absorption spectra, demonstrating proficiency in spectroscopic techniques.
- Performed water content analysis (KFT), water activity, bulk density, particle size determination.
- Interpreted analytical data, generate reports, and document findings in compliance with Good Laboratory Practices (GLP) and Good Manufacturing Practices (GMP).
- Ensure compliance with safety protocols, environmental regulations, and standard operating procedures (SOPs).

RESEARCH EXPERIENCE

Anti-ulcer activity of hemidesmus indicus ethanol extracts in Wistar rats	01/2022 – 07/2022
--	-------------------

SKILLS

- Experienced in operating and maintaining analytical instruments such as Karl Fischer titrator, dissolution apparatus and HPLC.
- High performance liquid chromatography (HPLC)
- UV visible spectroscopy
- Quality Management
- Instrument calibration
- Proficiency in using Microsoft 360.
- Good Laboratory Practices (GLP)

CERTIFICATIONS

- Certification from Sura Labs for industrial training in pharmaceutical manufacturing processes and quality control protocols

COURSE WORK

- Instrumental methods of analysis, Novel drug delivery systems, Quality control and assurance
