EDUCATION

Virginia Commonwealth University, Richmond, VA
Masters in Decision Analytics (Data Science (STEM)) | GPA 4 | May 2025
(Relevant Courses: Statistical Modeling, Big Data Analytics, Forecasting, Decision Analytics, Prescriptive Analytics, Machine Learning, Data Re-Engineering)

Christ University, Bangalore, India
Masters in Business Administration (Business Analytics) | GPA 3.64 | May 2024

Shri Ram College of Commerce, Delhi, India
B. Com (Hons) – Finance & Accounting | June 2021

PROFESSIONAL EXPERIENCE

Center on Transition Innovations at VCU | Richmond, VA
Education Coach | Data Analyst | September 2024 – May 2025

- Developed a Python-based data delivery template for ACP/DARS, improving system integration.
- Participated in data warehousing initiatives by integrating data from multiple sources to maintain data accuracy and consistency.
- Teach business, finance, and analytics using data visualization for students with intellectual disabilities.

Magnus Pharma Private Limited | Birgunj, Nepal
Data Analyst | April 2024 – June 2024

- Cut supply chain costs by 10% through segmentation and spend analysis.
- Performed ETL processes to cleanse and integrate unstructured data, optimizing the data pipeline for analysis.
- Built a Power BI dashboard to track inventory KPIs, reducing stockouts by 20%.

Deloitte (Offices of the US) | Gurugram, India
Audit Assistant Analyst 2+ | September 2021 – June 2023

- Managed financial audits for U.S. clients, ensuring 100% PCAOB & AICPA compliance (\$500M portfolio).
- Automated audit tasks in Tableau & Excel, boosting efficiency by 20% and saving 150+ hours annually.
- Optimized data workflows from Oracle & SAP, cutting analytics processing time by 2+ hours per audit.
- Improved data integration and reporting efficiency through SQL-based automation.

OPT Work Authorization (Effective June 16, 2025) | Open to Relocation

CERTIFICATIONS

Green Belt Six Sigma |
AEC Denmark & CSSC, US | May 2024

Python for Data Science & AI | IBM | May 2024

Bloomberg Market Concepts | May 2024

Advanced SQL for E-comm | IBM | April 2024

Business Analytics | Univ. of Colorado Boulder | Aug 2020

TECHNICAL SKILLS

Data Science & Statistical Tools:
SQL | Python | R | Tableau | Power BI | SAS | Excel | MS Office | VBA (Power Query) | Agile | SAS Data Integration Studio | SPSS | Regression Predictive Modeling | Optimization | Database Management | ETL processes | Quality Assurance | Data Mining | Data Warehousing and Architecture | Hadoop | Business Intelligence | Linux | Google Cloud Platform | AWS

Business & Financial Analysis:
Financial Modeling, Cost-Benefit Analysis, Risk Assessment, Workflow Optimization

PROJECTS & RESEARCH

Market Expansion Strategy | Fall 2024 |
Used K-means clustering & RFM analysis in Python to enhance targeted marketing by 8%.

Influenza Hospitalizations Forecasting | Fall 2024 |
Designed data integration processes for seamless BI reporting.

Personal Finance Tracker App | July 2024 |
Developed a Streamlit app with Python & MySQL for transaction tracking & visualization.

Retail Inventory Forecasting | June 2024 |
Applied ARIMA & Excel automation to optimize turnover (-15% holding costs, -30% reporting time).
