## SUMMARY:

- Experienced Data Engineer with 4+ years specializing in ETL processes, data pipeline development, and automation to support data-driven decision-making. Proficient in Python and SQL for robust data manipulation, transformation, and querying, with extensive experience in building and managing data pipelines using ETL tools like Informatica, SSIS, and Azure Data Factory. Skilled in containerization and orchestration with Docker, ensuring scalable, consistent deployments across environments, and well-versed in version control with Git and GitHub to streamline collaboration and code management. Known for optimizing data workflows, enhancing data integrity, and delivering high-performance data solutions in both cloud and on-premise settings.

## TECHNICAL SKILLS:

- Programming Languages:** Python, R, Java, Scala, SQL, Perl, Shell Script
- Python Packages:** NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, Seaborn, genism, OpenCV
- Big Data:** Hadoop, HDFS, Yarn, Sqoop, Oozie, Hive, HBase, Spark, Kafka, Impala, Cassandra, Apache Airflow, Databricks, Apache Spark
- ETL/ELT Tools:** SSRS, SSIS, SSAS, Informatica, Azure Data factory, Terraform, Kubernetes
- Database:** MySQL, SQL Server, Snowflake cloud, SQL, NoSQL, MySQL, SQL Server DB2, PostgreSQL, Oracle, MongoDB
- Tools/ IDE/ Build Tools:** PowerBI, Tableau, Talend Studio, Git, Git Bash, Eclipse, Jenkins, GitHub, Jira, Snowflake, Bitbucket, Data pipelines, Google Looker, VS Code, Sublime, SDLC, Agile, GIT, GitLab, ServiceNow, Jira, Confluence, Grafana
- Data Analysis:** Microsoft Excel (Power Query, Pivot Tables, SQL Querying, Data Cleansing, Statistical Analysis (Correlation, Confidence Intervals, Time Series Forecasting, Regression
- Cloud Computing:** AWS (S3, CloudWatch, RedShift, EC2, IAM, Lambda, CloudWatch; Azure (Azure Data Factory)
- Data Analytics Skills:** Data Cleaning, Data Masking, Data Manipulation, Data Visualization, Data Extraction, Data Mining, data architecture, data modeling
- Machine Learning:** Classification, Regression, Decision Trees, Random Forests, Ensemble models

## WORK EXPERIENCE:

### Verizon Wireless Systems, Data Engineer

Jul 2024 - Present

- Developed and optimized data pipelines using Apache Spark and Kafka, enabling real-time data ingestion and processing for critical business insights.
- Leveraged AWS Lambda and S3 to architect scalable, serverless data processing solutions, reducing ETL costs and enhancing fault tolerance.
- Designed and implemented automated ETL workflows in Azure Data Factory, streamlining data ingestion from multiple sources with robust error-handling mechanisms.
- Conducted complex data transformations in Python using Pandas and SQL, resulting in actionable insights and enhancing reporting accuracy.
- Applied Terraform and Kubernetes for infrastructure automation and containerization, boosting deployment efficiency across data engineering environments.
- Employed data masking techniques and encryption protocols to secure sensitive data and ensure compliance with data privacy regulations.
- Implemented Kafka streams to process real-time data, enhancing the company's capability for instant analytics on customer interactions.
- Created Power BI and Tableau dashboards for executives, visualizing complex datasets to drive strategic decision-making.
- Spearheaded the adoption of version-controlled data pipelines in Git, GitHub, and Bitbucket, standardizing code management and enhancing team collaboration.

### Oklahoma State University, Graduate Assistant

Jan 2023 - May 2024

- Developed and managed ETL pipelines for research datasets, automating data extraction, transformation, and loading processes to streamline data analysis workflows for academic projects.
- Assisted faculty in building scalable data pipelines using Python and SQL, enabling efficient handling of large datasets and improving data accessibility for research purposes.
- Created Python scripts to automate data cleansing and preprocessing tasks, enhancing data quality and reducing time spent on manual data preparation by 30%.
- Wrote complex SQL queries to extract and aggregate data from relational databases, providing insights and structured data for ongoing research projects.
- Worked with design and development teams to create responsive user interfaces using HTML and CSS, improving overall user experience.

- Utilized Python libraries such as NumPy and Pandas for data cleaning, transformation, and imputation across various formats, boosting data quality.
- Created and maintained interactive dashboards, KPIs, and reports in Power BI and Tableau to visualize user engagement metrics and mental health assessments, facilitating actionable insights.

#### **Sundaram Finance, Data Engineer**

**Aug 2019 - Jul 2022**

- Designed and maintained high-performance data pipelines in Hadoop and Hive, handling petabyte-scale data efficiently for critical business operations.
- Utilized Informatica and SSIS to manage data integration workflows, ensuring smooth data migration and high accuracy across multiple systems.
- Established data cleansing and quality assurance protocols using Python, enhancing the reliability and usability of legacy datasets.
- Integrated data from multiple RDBMS (SQL Server, Oracle) and NoSQL databases (MongoDB, Cassandra), enhancing data accessibility for analysts.
- Implemented data lineage tracking with Apache Atlas, ensuring compliance and traceability of data transformations for regulatory audits.
- Deployed and maintained big data environments in Azure, utilizing Redshift for high-volume data storage and processing.
- Standardized Git-based CI/CD practices for ETL deployments, reducing manual intervention and improving the reliability of data pipeline updates.

#### **EDUCATION:**

- **Master of Science in Management Information Systems | Oklahoma State University | OK, USA**
- **Bachelor of Technology in Electronics and Communication | Malla Reddy Engineering College | INDIA**

#### **CERTIFICATIONS:**

- |                                               |                                                                                      |
