Professional Summary

Analytical and results-driven Data Analyst with **3+ years of experience** in deriving actionable insights from complex data sets, designing data pipelines, and leveraging AI techniques for advanced analytics. Skilled in SQL, Python, R, Tableau, and machine learning frameworks to build predictive models and data visualizations. Adept at collaborating with cross-functional teams to support data-driven decision-making and operational improvements. Passionate about turning data into strategic value to drive business outcomes.

Technical Skills

- **Languages:** Python, SQL, R, Java
 - **Data Analysis & Visualization:** Tableau, Power BI, Matplotlib, Seaborn
 - **Databases:** MySQL, SQL Server, PostgreSQL
 - **Big Data & Cloud:** AWS (S3, Redshift), Azure, Google Cloud Platform basics
 - **Machine Learning & AI:** Scikit-learn, TensorFlow, Keras, Pandas, NumPy
 - **Tools & Technologies:** Jupyter Notebook, Git, Excel, SAS, ETL tools
 - **Concepts:** Statistical analysis, Data preprocessing, Predictive modeling, Clustering, Regression, Time-series analysis
-

Professional Experience

Data Analyst

Gordon Food Services, Kentwood, MI

May 2024 – Present

- Designed and implemented interactive dashboards in Tableau and Power BI, providing real-time insights into inventory, supply chain performance, and sales trends.
- Developed data pipelines using Python and SQL to automate data extraction, transformation, and loading (ETL) processes from multiple source systems.
- Built predictive models to forecast demand and optimize inventory levels, reducing stockouts and overstock costs.
- Conducted customer segmentation analysis using clustering algorithms, improving targeted marketing strategies and customer retention.
- Created anomaly detection scripts using machine learning techniques to identify and mitigate potential operational risks in supply chain workflows.
- Integrated sales and distribution data with ERP systems to enable comprehensive performance reporting across business units.
- Collaborated with cross-functional teams including procurement, logistics, and finance to define key performance indicators (KPIs) and improve decision-making processes.
- Performed root cause analysis on operational bottlenecks, leading to a 15% improvement in delivery efficiency.
- Automated recurring analytical reports, saving over 20 hours of manual effort monthly and enhancing data accuracy.
- Supported executive leadership with ad-hoc data requests and strategic business reviews, enabling data-driven strategic planning.

Environment: Python, SQL, Tableau, Power BI, AWS, Jupyter Notebook, Git

Data Analyst

Infinite Computer Solutions, Hyderabad, India

June 2021 – July 2023

- Assisted in developing data models and dashboards to analyze client operational metrics, enhancing visibility into key business processes.
- Executed SQL queries to extract and analyze large datasets, identifying trends and generating actionable insights.
- Supported AI-driven project modules focused on predictive maintenance, helping to reduce unplanned downtime by 20%.
- Conducted data cleaning and preprocessing using Python (Pandas, NumPy), improving model accuracy and reliability.
- Designed visual reports using Tableau, simplifying complex data findings for non-technical stakeholders.
- Collaborated with data engineering teams to automate data ingestion processes from various data sources and APIs.
- Performed statistical analysis to identify performance improvement opportunities and supported business optimization initiatives.
- Implemented regression and classification models to support demand forecasting and customer behavior analysis.
- Participated in cross-team Agile meetings to align project deliverables with business objectives and client requirements.
- Documented analytical methodologies and maintained knowledge base to improve reusability and standardization across future projects.

Environment: Python, SQL, Tableau, Excel, Power BI, Jupyter Notebook, Pandas, NumPy

Education

Master of Science in Computer Science

University at Albany, State University of New York, NY, USA

August 2023 – May 2025

Bachelor of Technology in Computer Science

Vignan Foundation for Science Technology and Research (VFSTR University), India

2019 – 2023

Certification

Oracle MySQL Implementation Associate (1Z0-922) – **Oracle.**
