EDUCATION

San Jose State University, CA
MS in Data Analytics

Spring 2021- Fall 2022

Biju Patnaik University of Technology, India
BE in Electrical and Electronics Engineering

2010 - 2014

PROFESSIONAL SUMMARY

As a data professional with a MS in Data Analytics from San Jose State University, I bring a comprehensive skill set spanning SQL, Python, and cloud technologies. My professional experience includes impactful roles at Partners Group, Capital One, and Caesars Entertainment, where I've consistently delivered data-driven solutions that drive business value. I have designed and implemented ETL pipelines to process data into the Data Warehouse. I have further processed data to build dashboards showcasing KPIs and metrics using Qlik Sense and Tableau. My technical expertise extends to optimizing SQL query performance, developing ETL jobs that streamline data processes, configuring data flows from OLTP systems to data warehouses, and resolving complex production data challenges. I am eager to leverage my technical expertise and analytical mindset to drive data-driven decision-making and contribute to the success of your organization. Let's connect and discuss how my skills and experience can benefit your team.

TECHNICAL SKILLS

Programming:	SQL, Python (NumPy, Pandas, Scikit-learn, Matplotlib, TensorFlow, Keras)
Tools and Environment:	Tableau, Qlik, Bigquery, S3, Snowflake
Other:	GIT, Visual Studio, PyCharm, Google Colab, Jupyter Notebook

PROFESSIONAL EXPERIENCE

Data Analyst, Partners Group, Broomfield, US

November 2022 - Present

- Led implementation of Money Market Fund project, resulting in \$5+ million revenue. Collaborate with stakeholder to understand requirements, setup data pipeline using Pentaho, ControlM, and SQL. Perform ETL and processed the data into DWH.
- Built Qlik dashboards for ServiceNow and Jira ticket management, improving data quality
- Debugged production issues, implemented hot-fixes, and designed long-term solutions
- Configured data flow from OLTP system to data warehouse for business reporting
- Developed and deployed ETL jobs for external data feeds
- Optimized performance of long-running SQL queries
- Analyzed and decommissioned obsolete SQL query notifications

Data Engineer, CapitalOne, San Jose, US

August 2022 - October 2022

- Analyzed auto loan servicing data and created Tableau dashboard to display mismatched records between internal and external data sources
- Performed impact analysis on Tableau and on-prem reports for decommissioning

ETL Developer, Caesars Entertainment, Las Vegas, US

June 2019 - August 2019

- During POC, migrated casino and hotel data from in-house DataMarts to Microsoft Azure SQL Database
- Developed Proof of Concept for Azure data pipeline

Service Delivery Specialist, IBM, Bangalore, India

April 2017 - July 2018

- Analyzed Storage utilization and executed allocations on SAN and NAS
- Managed IBM storage box firmware upgrades, data migrations, and space deallocation

Senior Analyst, Capgemini, Bangalore, India

August 2015 - April 2017

- Analyzed storage capacity, usage, and performance statistics
- Supported field technicians for hardware replacements and administered SAN switches

PROJECT EXPERIENCE

Project Experience

Solar Energy Estimation from Roof Images (Spring 2022)

- Developed Machine Learning and Deep Learning models to estimate solar energy potential from house roof images
- Implemented GCP Vertex AI for model deployment

Quora Question Pair Similarity (Spring 2022)

- Developed Machine Learning models to classify duplicate questions using NLP techniques

US Car Accident Analysis using Tableau (Fall 2021)

- Built dimensional data model and Tableau dashboards for accident insights

United States Wildfire Analysis (Fall 2021)

- Utilized AWS services for ETL processes and Tableau for data visualization

Steering Control of Self-Driving Car using CNN (Fall 2021)

- Developed CNN model to predict wheel angle for autonomous vehicles

Rideshare Analytics (Spring 2021)

- Designed OLAP dimensional data model using Google Bigquery

CERTIFICATIONS AND AWARDS

- Certified in Data Analyst using SQL from Data camp
- Certified in Data Visualizing, Data Modeling and Data Analysis using Power BI from Udemy
- Received "Project Star" Award from Capgemini in the year 2016 for extraordinary performance in project
- Confer "Blue Points" couple of times for saving cost to client in IBM
