DATA ANALYST

Detail-oriented Data Analyst with expertise in Python, Power BI, Excel, and MySQL for data analysis, automation, and visualization. Skilled in web scraping (BeautifulSoup, Selenium), data extraction, and workflow optimization. Experienced in team leadership, curriculum development, and stakeholder communication. Adept at problem-solving, database management, and analytical reporting to drive informed decision-making.

WORK EXPERIENCE

Masai School | Instructional Associate - Data Analyst (09/2024 - Present)

- **Conducted technical training sessions** on **Power BI, Python, and MySQL**, mentoring **40+ students and instructors** across multiple batches.
- **Developed structured course materials**, including **lectures, assignments, quizzes, and evaluations**, enhancing student learning outcomes.
- **Led unit operations as Point of Contact (POC)** for **SQL and Business Intelligence (BIX)**, ensuring smooth academic workflows and student engagement.
- **Resolved 250+ student doubts per month**, demonstrating **strong problem-solving and support skills**.
- **Implemented Python web scraping (BeautifulSoup, Selenium)** to automate data extraction and improve analytical workflows.
- **Facilitated Pair Programming sessions (Six daily, 30 minutes each)** to provide hands-on guidance and collaborative problem-solving.
- **Conducted student evaluations, interviews, and construct-week presentations**, contributing to the recruitment and assessment process.
- **Achieved high student ratings (4.65+ for SQL, 4.81+ for BIX)**, reflecting strong instructional and mentoring effectiveness.

SourceX | Data Analyst Intern - (12/2024 - 02/2025)

- Develop **Python** scripts for **data extraction and web scraping**.
 - Extract and analyze data from various web sources.
-

KEY COMPETENCIES

- **Language Knowledge:** Python, HTML, CSS, Numpy, Pandas, Selenium, BeautifulSoup
 - **Application Software:** Spring Tool Suite, PyCharm, IntelliJIdea, Visual Studio, Microsoft Office, Canva, YOLOv8, Google Colab, Jupyter Notebook, PowerBI
 - **Database Knowledge:** SQL, MySQL, MS EXCEL
 - **Operating System:** Comfortable with Linux & Windows.
 - Strong teamwork, leadership skills with the ability to adapt and collaborate in dynamic environments.
 - Proficient in problem-solving, and critical thinking, ensuring efficient data analysis and decision-making.
-

ACADEMICS

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Medicaps University, Indore | 2019 - 2023

CGPA: **8.3/10**

CERTIFICATIONS

- Goldman Sachs Software Engineering Virtual Experience Program on Forage - May 2024
 - "Marketing and **Leadership**" workshop at IIM, Indore - August 2019
 - "Programming for Everybody" by University of Michigan on Coursera - March 2021
 - "AWS Cloud Practitioner Essentials" - April 2021
 - "Cybersecurity Essentials" by Cisco Networking Academy - July 2022
-
