Computer Science Graduate with strong Java Programming skills specifically in Spring boot and in Amazon Web Services (certified Developer Associate)

EDUCATION

Bachelor of Computer Science : [Rutgers University – Graduation Year : 2024](#)

Successfully completed the Revature pretraining program where I learned valuable skills in Java, Spring Boot and MySQL.

CERTIFICATIONS

- AWS Developer Associate - 2025
- AWS Cloud Practitioner - 2023
- Certified Scrum Master – 2017

SKILLS

- **Java** : Strong background in Java backend and Spring Boot
- **Databases** : Strong background in relational databases like MySQL
- **AWS** Certified AWS Developer Associate with familiarity in many AWS services
- **Programming Languages & Tools**: Python, C, C++, React.js, Docker, Typescript, JavaScript, Linux, HTML5, CSS
- Strong knowledge in web technologies and concepts (e.g. REST APIs)

PROJECTS

OneClickLink – The One-time URL Shortener

Created a backend where users can enter a link onto a webpage and obtain a shortened link that can only be clicked once, after which it gets deleted from the database.

- Uses Spring Boot as a backend
- Includes an Admin feature using Spring Security to make edits
- Uses MySQL as a database

[Code: https://github.com/kona64/OneClickLink](https://github.com/kona64/OneClickLink)

REST API for Random Images

Created a RESTful API in Spring Boot that serves random images upon request

- Used Buket4j for request throttling
