EDUCATION

Clarkson University

Masters in Data Science

Potsdam, NY

Aug 2023 – May 2025

Swarnandhra College of Engineering and Technology

Bachelors in Computer Science

Narsapur, India

Aug. 2016 – Sept 2020

EXPERIENCE

Progress Solutions Inc.

Jr. Data Analyst Intern

USA

Sept 2025 – Present

- Collected, cleaned, and preprocessed large **datasets** from multiple sources to ensure **accuracy**, **consistency**, and reliability for analysis.
- Wrote and optimized **SQL queries** to extract, manipulate, and analyze structured data from **relational databases**.
- Conducted **data analysis** to uncover **trends**, **patterns**, and insights that supported key **business decision-making**.
- Designed and developed interactive **Tableau dashboards** to visualize and track key **KPIs** and business metrics, enabling stakeholders to monitor performance and make data-driven decisions.
- Built **ETL pipelines** to automate **data workflows**, reducing manual effort and improving **reporting efficiency**.
- Applied **statistical methods** and **predictive modeling techniques** to deliver actionable insights for **business strategy**.
- Collaborated with **stakeholders** to gather **requirements**, translate business needs into **data solutions**, and present findings effectively.

Clarkson University

Graduate Teaching Assistant

Potsdam, NY

Dec 2023 – July 2024

- Under the mentorship of **Professor Sara Morrison**, secured an opportunity to assist in **STAT 282**, an **undergraduate course** focused on statistical principles.
- Engaged with **students** by facilitating **discussions**, addressing their **queries**, and offering **guidance** to ensure successful task completion.
- Responsible for **evaluating assessments**, including **tests** and **quizzes**, while organizing and maintaining **academic resources**.
- Strengthened **communication** and **analytical skills** while expanding expertise in **statistical methodologies** and **instructional techniques**.

HCL Technologies Private Limited

Analyst

Hyderabad, India

Mar 2021 – July 2023

- Executed **backend data validation** and authored optimized **SQL queries** to ensure accuracy and reliability of **ServiceNow reporting and integrations**.
- Designed and optimized **data models** and **workflows** in **Agile environments**, supporting ServiceNow process automation and scalability.
- Built and maintained **Tableau dashboards** (live/extract connections) to track ITSM KPIs, service requests, and **change management activities**.
- Automated **data cleansing and transformation tasks** using **SQL and Python**, improving reporting efficiency and reducing manual effort.
- Partnered with **cross-functional teams** to translate business requirements into **technical solutions**, enhancing reporting accuracy and stakeholder insights.
- Conducted **UAT and system-level testing**, validating ServiceNow datasets across multiple business processes for consistency and compliance.

PROJECTS

MBA Financial Management Web App | *SQL,ETL,Tableau,Python, HTML, CSS*

May 2025

- * Engineered a **Dimensional-model-based Data Warehouse** to manage MBA program data including scholarships and revenue.
- * Synthesized **ETL workflows** to enable efficient extraction, transformation, and loading of academic data.
- * Formulated **Advanced SQL queries** to derive key performance metrics and support strategic decisions.
- * Constructed a **Dynamic front-end interface** enabling users to insert, modify, and review academic and financial records.
- * Designed and implemented an interactive **Tableau dashboard** to visualize key metrics such as revenue trends and scholarship distribution.

Book Club Website | *Flask, MySQL (phpMyAdmin), Tableau,HTML, CSS, JavaScript, Chart.js*

Dec 2024

- * Developed a **Full-stack** web app for **book** enthusiasts with secure **authentication** and role-based **access** .
- * Built **RESTful APIs** and **MySQL-backend** operations to manage **books, orders, and analytics**.
- * Designed dashboards using **Chart.js** and **Tableau** to visualize sales performance, user activity
- * Created **dynamic** pages with **HTML, CSS, and JavaScript** for an engaging **user experience**.

House Price Prediction | *Python, Data Mining, Regression*

Feb 2024

- * Analyzed the **dataset**, handled missing data, and encoded **categorical variables** to prepare the data for modeling.
- * Performed **clustering analysis** and applied **Linear Regression, Decision Tree Regression, and Random Forest Regression** models for prediction.
- * Tuned model **hyperparameters** using **Grid Search**, evaluated performance through **cross-validation**, and assessed metrics like **RMSE** and **R-squared** to identify overfitting.

Diabetes Machine Learning | *python,Pandas,Train and Test data,*

Feb 2024

- * The **dataset** is loaded into a **pandas DataFrame** for thorough **manipulation** and **preprocessing**, followed by **descriptive statistics** and **visualization** techniques like **histograms** to analyze the **distribution** of features.
- * Applied **normalization** or **standardization** using **MinMaxScaler** or **StandardScaler**, then split the data into **training** and **test sets** for objective **model evaluation**.

TECHNICAL SKILLS

Data Analysis & Programming: Python, SQL ,Excel,Google Sheets,HTML5,CSS

Data Visualization & Reporting: Tableau, Power BI,Alteryx, Jupyter Notebook, Matplotlib, Seaborn, Pandas, NumPy

Databases: MySQL,Microsoft SQL Server, MySQL Workbench,Oracle

Cloud Platforms: AWS

Libraries & Tools: Scikit-learn, Git, Postman, Visual Studio Code, PyCharm, Python Debugger, Notepad++

Frameworks: Flask, Extract, Transform, Load (ETL)

Statistical Methods & Machine Learning :Hypothesis Testing/A/B Testing,Regression Analysis, Clustering and Classification, Time Series Forecasting, Predictive Modeling

Version Control & Collaboration: Git / GitHub,Jira, Slack / MS Teams

Other tools: Incident Management,Problem Management,service catalog,Change management

CERTIFICATIONS

- ServiceNow Certified System Administrator.
- Programming for Everybody (Getting Started with Python)-Coursera.
- Python Data Structures-Coursera.
- Using Python to Access Web Data-Coursera
- IBM CE-Enterprise Application Development (J2EE) Using IBM Rational Application Developer.
