EXPERIENCE

Data Analyst Intern

May 2024 – Dec 2024

Ideal Industries, Inc

Illinois, United States

- Built Azure Data Factory pipeline to validate addresses, resulting in 90% improvement in database consistency.
- Developed stored procedures to automate end-to-end address verification process, reducing manual intervention.
- Crafted sales order dashboard to provide detailed insights on open orders, driving 60% improvement in business.
- Developed an MRP Jet Report integrating directly with NAV, improving inventory management and material ordering accuracy, resulting in a 90% boost in business efficiency.

Information Technology Analyst(Graduate Assistant)

Jan 2024 – May 2024

Northern Illinois University

Illinois, United States

- Conducted security audits to identify vulnerabilities and ensure compliance with cybersecurity standards.
- Managed the university SQL Server database to ensure data integrity and optimize system performance.
- Developed detailed reports for professors to assess course performance and improve teaching strategies.

Data Analyst Consultant

Aug 2023 – Dec 2023

Cancer Wellness Center

Illinois, United States

- Built a Power BI dashboard for CWC with complex calculations to visualize patient and donor demographics.
- Integrated and transformed multi-source data to enable dynamic demographic analysis.
- Designed interactive visualizations to provide real-time insights for informed decision-making.

SDS Concession Abuse Prevention Analyst

May 2022 – Feb 2023

Amazon Development Center

Hyderabad, India

- Ensured integrity of customer returns and refunds by implementing and maintaining robust data analysis.
- Utilized data analysis and investigation techniques to proactively identify and mitigate fraudulent activities, achieving a 25% reduction in fraudulent concessions and ensuring secure transactions.
- Collaborated with cross-functional teams to implement strategies preventing concession misuse.

TECHNICAL SKILLS

Languages: SQL, Python, R Programming, HTML/CSS, MySQL, MongoDB, PHP

Databases: MySQL, SQL Server, PostgreSQL, MongoDB, Snowflake

Tools and Platforms: Tableau, Power Bi, Fivetran, Azure Data Factory, AWS, SAP ERP, Microsoft NAV, Jira, Git, Azure DevOps, Jet Reports, Microsoft Excel, Figma, Anaconda

Core Competencies: Data Analytics, Data Architect, Data Modeling, Database Design, ETL (Extract, Transform, Load), Data Visualization, Data Mining, Software engineering

PROJECTS

Smarty Address Verification | *Snowflake, SQL, Azure Data Factory, Smarty*

- Built an end-to-end Azure Data Factory pipeline to validate and correct inaccurate addresses, automating the process using stored procedures.
- Integrated Web Activity to perform API calls for address validation and updated the database with correct records.
- Improved business operations by avoiding legal issues and significantly reducing delivery costs through enhanced address accuracy.

Havi Vendors load Management Dashboard | *Tableau, Microsoft Excel, SQL*

- Created an Interactive Vendor Management Dashboard for Havi, enabling real-time tracking of manufacturing and raw material inventory for streamlined vendor management.
- Developed a reliability score to evaluate inventory performance for Havi's managed organizations.
- Utilized Tableau's trend line and forecasting tools to predict organizational performance based on current data.

EDUCATION

Northern Illinois University

DeKalb, IL

Master of Science in Management Information Systems

Dec 2024

Vardhaman College of Engineering

Hyderabad, India

Bachelor of Technology in Electrical and Electronics Engineering

Mar 2022

CERTIFICATIONS AND CO-CURRICULAR ACTIVITIES

Google Data Analytics Professional Certificate.

AWS Partner: AWS Cloud Practitioner Essentials.

Organizer, Institute of Electrical and Electronics Engineers (IEEE) Event, CS Chapter.
